Systematic Philosophy:

Philosophy and Its Others William Desmond, 1990-01-01 Philosophy and its Others responds to the widespread sense that philosophy must renew its intellectual community with other significant ways of being and mind. The author articulates philosophy's community of mind with the aesthetic, the religious, and the ethical without losing any of its own distinctive voice. He develops an original and constructive position between these extremes: the Hegelian extreme which reduces the plurality of others to a dialectical totality and the Wittgensteinian and deconstructive options that celebrate plurality but without a proper sense of the connectedness of philosophy and its others.

The Highroad Around Modernism Robert C. Neville, 1992-01-01 Discussions of modernism and postmodernism in philosophy and the arts are usually based on a narrow reading of the Western tradition and are not conscious of the narrowness. The modern period beginning with the European Renaissance spawned many developments not just the modernist one in terms of which the tradition has been read. From the standpoint of the highroad around modernism both modernism and postmodernism look like nothing more than two late modern movements perhaps too preoccupied with themselves and their historical place to engage a swiftly changing world containing more than the Western tradition. **The Highroad Around Modernism** develops and defends an explicitly non-modernist and non-postmodernist extension of modernity applicable to the problems of world-wide cultural interactions.

Ruminations: Selected Philosophical, Historical, and Ideological Papers: Volume 1, Part 1, The Infinite Eric v.d. Luft, 2019-06-14 Since the 1970s I have pursued three separate but overlapping and sometimes simultaneous careers: 1 philosopher, writer, teacher, historian of the long nineteenth century (1789-1914); 2 editor, translator, photographer, publisher, biographer, encyclopedist; 3 cataloging librarian, rare books and special collections librarian, historian of medicine. Somehow these three vocations have garnered me some acclaim, even an entry in *Who's Who in America*. Each of them has resulted in some published or presented works. Because these works have been scattered in a wide variety of venues, some of which have gone out of print or have otherwise become generally unavailable and of course with the oral presentations being gone as soon as they are given, I have thought it wise to select, epitomize, and bring them together in one place here. Thus what follows in these volumes is what I consider to be the most important of my shorter works.

[An Introduction to Systematic Philosophy](#) Walter Taylor Marvin, 1903

After Rorty G. Elijah Dann, 2006-06-22 Trained by some of the most eminent philosophers of the twentieth century, Richard Rorty has come to be one of the strongest critics of the philosophical tradition. In this book G. Elijah Dann takes seriously Rorty's writings, showing how contrary to what many philosophers believe he actually helps to enhance and enliven both the philosophy of religion and the chances for moral progress. Dann goes on to discuss Rorty's metaethics and reviews Rorty's well-known article "Religion as Conversation Stopper," showing how the private/public distinction, though well-placed, needs adjustment. Contrary to Rorty's view that religious values should remain in the private realm, Dann maintains religious values can play an important role in the public square, albeit through a translation.

into secular terms Finally the book explores how the history of philosophical interests shaped theological ones and Dann looks at Rorty s more recent thoughts about religion particularly in his discussion with the Italian philosopher Gianni Vattimo

Hegel and Whitehead George R. Lucas,1986-01-01 Hegel and Whitehead presents a careful exploration of the similarities between these two formidable representatives of systematic philosophy Some of the most distinguished scholars in European and American philosophy converge herein to explore the similarities in Hegel s and Whitehead s contemporary influence as well as in the content of their respective systems and in their philosophical styles This volume begins with important critical comparative and historical assessments of the contemporary problems in metaphysics philosophy of science philosophy of mind ethics social thought and philosophy of religion of history and of culture against the background of the important contributions made to these discussions by both Hegel and Whitehead The result is a collection of vigorous new essays in systematic philosophy that reflect the enduring contributions of these two philosophers to the contemporary philosophical climate on two continents

Enjoyment as Enriched Experience Nathaniel F. Barrett,2023-02-22 This book has two main tasks 1 to call attention to the special challenges presented by our experience of affect all varieties of pleasure and pain and 2 to show how these challenges can be overcome by an enrichment approach that understands affect as the enrichment or deterioration of conscious activity as a whole This enrichment approach draws from Alfred North Whitehead as well as the pragmatists John Dewey and William James all of whom thought of affect as a fundamental aspect of experience rather than a special class of feelings It also draws from recent scientific research that suggests that the dynamic repertoire of consciousness can change effectively expanding and contracting our capacity to feel Weaving these perspectives together the book develops a theory that accounts for the peculiar phenomenology of affect and sheds new light on a diverse range of experiences from everyday pleasures and pains to the special satisfactions of the arts and religious festivity At the same time it presents a fresh and distinctively affect centered perspective on the nature of consciousness

Ancient and mediaeval philosophy Herbert Ernest Cushman,1910 *Remembering Hedley* Coral Bell,Meredith Thatcher,2008-08-01 Remembering Hedley commemorates the life of Hedley Bull 1932-85 a pivotal figure in the fields of international relations and strategic studies Its publication coincides with the official opening on 6 August 2008 of the Hedley Bull Centre at The Australian National University in Canberra

Ohio State University Bulletin ,1924 **Overcoming Foundations** Richard Dien Winfield,2024-10-31 First published in 1989 Overcoming Foundations offers a challenge to both postmodernism and traditional doctrines of knowledge and value by undertaking a systematic philosophy without foundations United by a concern for overcoming foundations without overcoming philosophy the essays in this book discuss a wide range of issues in epistemology and ethics incorporating analysis of major thinkers of the past and present and drawing critically on Hegel s argument The book unveils the dogmatic assumption of the futility of philosophy s traditional quests for universal truth and ethics and lays out the strategy for achieving autonomy of reason and valid norms of conduct without foundational appeals

After examining how a critique of foundations can be executed without making new foundational claims Winfield considers how philosophy must operate in order to think truth without given conceptual schemes and to achieve rational autonomy Finally the author explores the implications of a reason free of foundations for the history of philosophy and the debates embroiling contemporary thought The essays outline an independent theory of justice rethinking morality and the structures of civil society and democratic government Overcoming Foundations advances a much ignored philosophical alternative a systematic contribution to epistemology ethics and social and political philosophy *New York University Catalogue* New York University,1906 Journal of the Royal Asiatic Society of Great Britain & Ireland Royal Asiatic Society of Great Britain and Ireland,1905 Has appendices *Journal of the Royal Asiatic Society of Great Britain and Ireland* ,1905 Bulletin New York University,1902 *American Universities and Colleges* ,1928 The Ohio State University Bulletin Ohio State University,1922 *Official Register* Princeton University,1926 **Catalogue of Princeton University** Princeton University,1926 **University Register** Johns Hopkins University,1910
