Art Work Matthew J. Durey,2023-10-19 This book is about the relationship between art and work in the cultural economy It is an exploration of the experiences of people working in cultural and creative industries and of the importance of place identity and culture in postindustrial society Drawing on fieldwork exploring the conditions of cultural work identity and postindustrial cities in Newcastle upon Tyne UK and Hamburg Germany the book argues that the conditions of work in the cultural economy are the result of a contradictory tension between art and economy which manifests in various ways in artists conditions of work their identities and their relationship to the changing landscapes of postindustrial cities This is explored through a series of stories from people working in cultural and creative industries in which they highlight significant contradictions obstacles and opportunities in negotiating the cultural economy casting light on the importance of art and culture in postindustrial society

Selling the Movie Ian Haydn Smith,2018 As long as there have been movies there have been posters selling films to audiences Posters came into existence just decades before the inception of film and as movies became a universal medium of entertainment posters likewise became a ubiquitous form of advertising At first movie posters suggested a film s theme from adventure and romance to thrills and spine tingling horror Then with the ascendancy of the film star posters began to sell icons and lifestyles nowhere more so than in Hollywood But every country producing films used posters to sell their product Selling the Movie The Art of the Film Poster charts the history of the movie poster from both a creative and a commercial perspective It includes sections focusing on poster artists the development of styles the influence of politics and ideology and how commerce played a role in the film poster s development The book is richly illustrated with poster art from many countries and all eras of filmmaking From creating the brand of Charlie Chaplin s tramp and marketing the elusive mystique of Greta Garbo to the history of the blockbuster the changing nature of graphic design by the decade and the role of the poster in the digital age Selling the Movie is an entertaining and enthralling journey through cinema art and the business of attracting audiences to the box office

Resistance, Insurgence and Identity Robert L. Douglas,2008 This book shows how art was used to express the discontent and aspirations of Black America during the turbulent sixties and seventies Following the assassination of Dr Martin Luther King Jr many African Americans shifted their interest from the Civil Rights movement with its emphasis on integration and equality to Black Liberation with its emphasis on nationalism self determination and separation socially and culturally Some black artists decided to join the struggle in what came to be known as the Black Arts Movement Larry Neal defined this movement as being radically opposed to any concept of the artist that alienates him from his community It is the aesthetic and spiritual sister of the Black Power concept and as such it envisions an art that speaks directly to the needs and aspirations of Black America In order to perform this task the Black Arts Movement programs a radical reordering of Western cultural aesthetics It proposes a separate symbolism mythology critique and iconology The art of Mari Evans and Nelson Stevens exemplify the spirit of achievements and self determination consciously or not that links them to the Black Art Movement This book examines how Evans and Stevens ethos fashioned by their lives and certain influences causes each to create the messages that became their personal resistance insurgence and defense against the ideological effects of racism

My Gender Workbook Kate Bornstein,2013-06-19 Gender isn t just about male or female anymore if you have any doubts just turn on your television RuPaul is as familiar as tomato ketchup with national radio and television shows and transgendered folk are as common to talk shows as screaming and yelling But if the popularization of gender bending is revealing that male and female aren t enough where are we supposed to go from here Cultural theorists have written loads of smart but difficult to fathom texts on gender but none provide a hands on accessible guide to having your own unique gender With My Gender Workbook Kate Bornstein brings theory down to Earth and provides a practical approach to living with or without a gender Bornstein starts from the premise that there are not just two genders performed in today s world but countless genders lumped under the two gender framework Using a unique deceptively simple and always entertaining workbook format Bornstein gently but firmly guides you to discover your own unique gender identity Whether she s using the USFDA s food group triangle to explain gender or quoting one liners from real gender transgressors Bornstein s first and foremost concern is making information on gender bending truly accessible With quizzes and exercises that determine how much of a man or woman you are My Gender Workbook gives you the tools to reach whatever point you desire on the gender continuum Bornstein also takes aim at the recent flurry of books that attempt to naturalize gender difference and puts books like Men are from Mars Women are from Venus squarely where they belong on Uranus If you don t think you are transgendered when you sit down to read this book you will be by the time you finish it

Unseemly Pictures Helen Pierce,2008 This engaging book is the first full study of the satirical print in seventeenth

century England from the rule of James I to the Regicide It considers graphic satire both as a particular pictorial category within the wider medium of print and as a vehicle for political agitation criticism and debate Helen Pierce demonstrates that graphic satire formed an integral part of a wider culture of political propaganda and critique during this period and she presents many witty and satirical prints in the context of such related media as manuscript verses ballads pamphlets and plays She also challenges the commonly held notion that a visual iconography of politics and satire in England originated during the 1640s tracing the roots of this iconography back into native and European graphic cultures and traditions
