## **The Monkey Wars:**

**The Monkey Wars** Deborah Blum, 1995-12-14 The controversy over the use of primates in research admits of no easy answers We have all benefited from the medical discoveries of primate research vaccines for polio rubella and hepatitis B are just a few But we have also learned more in recent years about how intelligent apes and monkeys really are they can speak to us with sign language they can even play video games and are as obsessed with the games as any human teenager And activists have also uncovered widespread and unnecessarily callous treatment of animals by researchers in 1982 a Silver Spring lab was charged with 17 counts of animal cruelty It is a complex issue made more difficult by the combative stance of both researchers and animal activists In *The Monkey Wars* Deborah Blum gives a human face to this often caustic debate and an all but human face to the subjects of the struggle the chimpanzees and monkeys themselves Blum criss crosses America to show us first hand the issues and personalities involved She offers a wide ranging informative look at animal rights activists now numbering some twelve million from the moderate Animal Welfare Institute to the highly radical Animal Liberation Front a group destructive enough to be placed on the FBI's terrorist list And she interviews a wide variety of researchers many forced to conduct their work protected by barbed wire and alarm systems men and women for whom death threats and hate mail are common She takes us to Roger Fouts's research center in Ellensburg Washington where we meet five chimpanzees trained in human sign language and we visit LEMSIP a research facility in New York State that has no barbed wire no alarms and no protesters chanting outside because its director Jan Moor Jankowski listens to activists with respect and treats his animals humanely And along the way Blum offers us insights into the many side issues involved the intense battle to win over school kids fought by both sides and the danger of transplanting animal organs into humans As it stands now Blum concludes the research community and its activist critics are like two different nations nations locked in a long bitter seemingly intractable political standoff But if you listen hard there really are people on both sides willing to accept and work within the complex middle When they can be freely heard then we will have progressed to another place beyond this time of hostilities In *The Monkey Wars* Deborah Blum gives these people their voice [\*The Monkey Wars\*](#) Deborah Blum, 1994 A fascinating and very lucid account of the conflicts both social and psychological that permeate the keeping and use of monkeys and apes in American laboratories **Monkey Wars** Richard Kurti, 2015 Originally published in the United Kingdom by Walker in 2013 **WLA**, 2006 *Political Animals* Robert Garner, 2016-07-27 In this thorough yet accessible book Robert Garner explores the character of animal protection policy making in Britain and the United States and the opportunities open to animal protection movements In showing how the political system in both countries has been responsive to the growing demands for reforms in the way animals are treated he argues that there is a viable reformist strategy for the animal protection movement short of the adoption of animal rights objectives Much less protection is afforded to animals in the United States however largely as a consequence of the particular policy networks within which animal welfare decisions are

made **Ethical Issues in HIV Vaccine Trials** T. Kerns,1996-12-11 This book explores some of the complex ethical quandaries entailed by proposed phase III HIV preventive vaccine trials The book argues that such trials must be initiated as soon as politically and ethically feasible on the one hand and that no such trials should be undertaken until we can assure full compliance with the Nuremberg Code and the WHO CIOMS International Ethical Guidelines for Biomedical Research Involving Human Subjects on the other The tension between these two positions is fully detailed and suggestions offered for how to think about possible resolutions Search and Clear William J. Searle,1988 Search and Clear demonstrates that the seeds of war were implicit in American culture distinguishes between literature spawned by Vietnam and that of other conflicts reviews the literary merits of works both well and little known and explores the assumptions behind and the persistence of stereotypes associated with the consequences of the Vietnam War It examines the role of women in fiction the importance of gender in Vietnam representation and the mythic patterns in Oliver Stone s Platoon Essayists sharply scrutinize American values conduct and conscience as they are revealed in the craft of Tim O Brien Philip Caputo Michael Herr Stephen Wright David Rabe Bruce Weigl and others **Artie Azzetti & Me** Paul Berge,2009-11-10 Rejection Slip Theater r produced a string of radio drama literary marvels but none more popular than Paul Berge s Artie Azzetti stories about kids growing up in New Jersey during the Vietnam War era 1959 1975 Based on Berge s weekly monologues as host of the radio series Rejection Slip Theater which aired 1993 2003 Furry Tales Fred Patten,2019-09-26 Tales featuring anthropomorphic animals have been around as long as there have been storytellers to spin them from Aesop s Fables to Reynard the Fox to Alice in Wonderland The genre really took off following the explosion of furry fandom in the 21st century with talking animals featuring in everything from science fiction to fantasy to LGBTQ coming out stories In his lifetime Fred Patten 1940 2018 one of the founders of furry fandom and a scholar of anthropomorphic animal literature authored hundreds of book reviews that comprise a comprehensive critical survey of the genre This selected compilation provides an overview from 1784 through the 2010s covering such popular novels as Watership Down and Redwall along with forgotten gems like The Stray Lamb and Where the Blue Begins and science fiction works like Sundiver and Decision at Doona **The Monkey Wars** Bruce Weigl,1985 Brief poems deal with the Vietnamese War a couple s quarrel a battered wife rites of passage and physical and psychological violence **The Monkey Wars** Burton P. Brodt,2014-06-29 This satirical tale lampooning bigotry takes on the thorny debate between evolutionism and creationism spanning three quarters of the twentieth century in America from the Scopes Trial in 1925 to the recent past Theories of our human origins come and go it seems but intolerance and bigotry remain The story begins with the Scopes Trial or reactions to it which established that teaching evolution was illegal The novel ends with another trial almost a mirror image of the Scopes Trial which establishes Darwinism as the only creation theory that may be taught legally The issue of creationism versus Darwinism is not really at stake and the author does not try to prove that either is right or wrong What is wrong is pigheadedness Freedom of expression even in the

classroom is very much at stake in this novel and no religious or scientific clique has a right to stifle it This novel is saying that when it comes to bigotry the scientific community can be just as guilty as the religious community Part satire part philosophical puzzle part courtroom drama this experimental novel is told in several styles from several points of view It is sure to be controversial Whatever one's beliefs or rigid rejection of beliefs this is a novel to make you think
