society in six not so easy steps written by the cohost of WNYC's On the Media As is often observed Trump is a symptom of a virus that has been incubating for at least fifty years But not often observed is where the virus is imbedded in the psychic core of our identity In American Manifesto Saving Democracy from Villains Vandals and Ourselves popular media personality Bob Garfield examines the tragic confluence of the American preoccupation with identity and the catastrophic disintegration of the mass media Garfield investigates how we've gotten to this moment when our identity is threatened by both the left and the right when e pluribus unum is no longer a source of national pride and why when looking through this lens of identity the rise of Trumpism is no surprise Overlaying this crisis is the rise of the Facebook Google duopoly and the filter bubble of social media where identity is insular and immutable But fear not WNYC's On the Media cohost Garfield has ideas about how we may counter the forces of fragmentation the manifesto itself six steps to take to reassemble our fractured society A quick fascinating read American Manifesto offers not only a vision of a country in extremis but also a plan for how to address the ways in which our democracy is imperiled Provocative profound and sometimes hilariously profane American Manifesto is a call to action like no other
