watershed moment in the development of modern Ireland socially politically demographically and culturally In the space of only four years Ireland lost twenty five per cent of its population as a consequence of starvation disease and large scale emigration Certain aspects of the Famine remain contested and controversial for example the issue of the British government s culpability proselytism and the reception of emigrants However recent historiographical focus on this famine has overshadowed the impact of other periods of subsistence crisis both before 1845 and after 1852 This first volume addresses the questions when did the famine begin and end to what extent is the British government after 1846 culpable for the suffering and mortality how important was philanthropy in alleviating the distress what was the role and responsibility of Irish elites is the word famine appropriate given that Ireland continued to export large amounts of food **Samuel Wedge** Kevin D.
