Woman Song:

Medieval Woman's Song Anne L. Klinck, Ann Marie Rasmussen, 2015-08-06 The number of surviving medieval secular poems attributed to named female authors is small some of the best known being those of the trobairitz the female troubadours of southern France However there is a large body of poetry that constructs a particular textual femininity through the use of the female voice Some of these poems are by men and a few by women including the trobairitz many are anonymous and often the gender of the poet is unresolvable A woman's song in this sense can be defined as a female voice poem on the subject of love typically characterized by simple language sexual candor and apparent artlessness The chapters in *Medieval Woman's Song* bring together scholars in a range of disciplines to examine how both men and women contributed to this art form Without eschewing consideration of authorship the collection deliberately overturns the long standing scholarly practice of treating as separate and distinct entities female voice lyrics composed by men and those composed by women What is at stake here is less the voice of women themselves than its cultural and generic construction

Woman's Songs in Ancient Greece Anne L. Klinck, 2008-12-15 Through a balanced discussion of poetry as performance relevant kinds and genres of poetry the definition and scope of woman's song as a mode partheneia maidens songs and the girls chorus lyric in the drama echoes and imitations of archaic woman's song in Hellenistic poetry and inferences about the differences between male and female authors Klinck demonstrates that woman's song is ultimately best understood as the product of a male dominated culture but that feminine stereotypes while refined by skilful male poets are interrogated and shifted by female poets

Anthology of Ancient Medieval Woman's Song A. Klinck, 2004-04-16 This collection focuses on a woman's point of view in love poetry and juxtaposes poems by women and poems about women to raise questions about how femininity is constructed Although most medieval woman's songs are either anonymous or male authored lyrics in a popular style the term can usefully be expanded to cover poetry composed by women and poetry that is aristocratic or learned rather than popular Poetry from ancient Greece and Rome that resonates with the medieval poems is also included here Readers will find a range of voices often echoing similar themes as women rejoice or lament praise or condemn plead or curse speak in jest or in earnest to men and to each other about love
