## **Women Aviators:**

*Women Aviators* Karen Bush Gibson, 2013-07-01 Detailing the role of women in aviation from the very first days of flight to the present this rich exploration of the subject profiles 26 women pilots who sought out and met challenges both in the sky and on the ground Divided into six chronologically arranged sections this book composes a minihistory of aviation Learn about pioneers such as Katherine Wright called by many the Third Wright Brother and Baroness Raymonde de Laroche of France the first woman awarded a license to fly Read about barnstormers like Bessie Coleman and racers like Louise Thaden who bested Amelia Earhart to win the 1929 Women s Air Derby Additional short biography sidebars for other key figures and lists of supplemental resources for delving deeper into the history of the subject are also included [Before Amelia](#) Eileen F. Lebow, 2002 Before Amelia is the remarkable story of the world's women pioneer aviators who braved the skies during the early days of flight While most books have only examined the women aviators of a single country Eileen Lebow looks at an international spectrum of pilots and their influence on each other The story begins with Raymonde de Laroche a French woman who became the first licensed female pilot in 1909 De Laroche Lydia Zvereva Melli Beese Hilda Hewlitt Harriet Quimby and the other women pilots profiled here rose above contemporary gender stereotypes and proved their ability to fly the temperamental heavier than air contraptions of the day Lebow provides excellent descriptions of the dangers and challenges of early flight Crashes and broken bones were common and many of the pioneers lost their lives But these women were adventurers at heart In an era when women's professional options were severely limited and the mere sight of ladies wearing pants caused a sensation these women succeeded as pilots flight instructors airplane designers stunt performers and promoters This book fills a large void in the history of the first two decades of flight **Women Aviators** Bernard Marck, 2009 Aviation History [Amelia Earhart's Daughters](#) Leslie Haynsworth, David Toomey, 2000-05-30 In 1942 with war raging on two fronts and military pilots in short supply the U S Army Air Force enlisted a handful of skilled female aviators to deliver military planes from factories to air bases expanding the successful program to include more than one thousand women These superb pilots flew every aircraft in the U S Army Air Force including B 26s when men were afraid to logging more than six million miles in all kinds of weather yet when World War II ended their wartime heroism was left unheralded In 1961 with the dawn of the space age a handful of top female pilots took part in a new program termed Women in Space Subjected to the same rigorous tests as the Mercury astronauts thirteen women top notch pilots were admitted to the program Once again women had reason to dream that at least one of them would be the first of their sex in space The matter went as far as Congress where dramatic hearings included testimony from astronauts John Glenn and Scott Carpenter But their hopes were dashed These skilled aviators had the right stuff at the wrong time and again women were denied their place in history This is their story one of courage ferocity and patriotism **Fly Girls** P. O'Connell Pearson, 2018-02-06 A truly inspiring read Booklist starred review A solid account of women's contributions as aviators during World War II Kirkus

Reviews In the tradition of Hidden Figures debut author Patricia Pearson offers a beautifully written account of the remarkable but often forgotten group of female fighter pilots who answered their country's call in its time of need during World War II. At the height of World War II the US Army Airforce faced a desperate need for skilled pilots but only men were allowed in military airplanes even if the expert pilots who were training them to fly were women. Through grit and pure determination 1/100 of these female pilots who had to prove their worth time and time again were finally allowed to ferry planes from factories to bases to tow targets for live ammunition artillery training to test repaired planes and new equipment and more. Though the Women Airforce Service Pilots lived on military bases trained as military pilots wore uniforms marched in review and sometimes died violently in the line of duty they were civilian employees and received less pay than men doing the same jobs and no military benefits not even for burials. Their story is one of patriotism the power of positive attitudes the love of flying and the willingness to serve others with no concern for personal gain. High Flyers Ann McCallum Staats, 2022-07-26

These 15 women fly outside the lines. Soar beside Black Hawk helicopter pilot turned politician Tammy Duckworth hot air balloonist Edgora McEwan or medevac pilot Dede Murawsky. Higher up meet commercial and military aviators such as the Coast Guard's Ronaqua Russell the first African American female to receive the prestigious Air Medal for her rescue efforts during Hurricane Harvey. Next ride along with Tammie Jo Shults whose story includes a harrowing catastrophic engine failure while in command of 148 people aboard Southwest's Flight 1380. Others share their experiences in military high performance jets the Stratotanker or while flying for the Blue Angels. Reaching past the bounds of Earth are astronauts who have launched in the cramped Russian rocket the Soyuz orbited Earth while conducting critical science experiments or lived aboard the International Space Station. In all cases the women in this book faced obstacles. Throughout their rise to incredible accomplishment these courageous go-getters persevered and endured insisting on success. Ultimately each succeeded on her path to flight. These diverse high flyers are dreamers and doers who believed despite the odds that soaring is possible. **Wings of Gold** Beverly Weintraub, 2021-12-15

On Feb 2 2019 the skies over Maynardville Tennessee filled with the roar of four F/A 18F Super Hornets streaking overhead in close formation. In each aircraft were two young female flyers executing the first all woman Missing Man Formation flyover in Navy history in memory of Captain Rosemary Mariner groundbreaking Navy jet pilot inspiring commander determined and dedicated leader whose drive to ensure the United States military had its choice of the best America had to offer both men and women broke down barriers and opened doors for female aviators wanting to serve their country. Selected for Navy flight training as an experiment in 1972 Mariner and her five fellow graduates from the inaugural group of female Naval Aviators racked up an impressive roster of achievements and firsts: first woman to fly a tactical jet aircraft first woman to command an aviation squadron first female Hurricane Hunter first pregnant Navy pilot plaintiff in a federal lawsuit that overturned limits on women's ability to fulfill their military duty. Leading by example and by confrontation when necessary they challenged deep skepticism within the fleet.

and blazed a trail for female aviators wanting to serve their country equally with their male counterparts This is the story of their struggles and triumphs as they earned their Wings of Gold learned to fly increasingly sophisticated jet fighters and helicopters mastered aircraft carrier landings served at sea and reached heights of command that would have been unthinkable less than a generation before And it is the story of the legacy they left behind one for which the women performing the Navy s first Missing Woman Flyover in Mariner s memory owe a debt of gratitude **To Provide Recognition to the Women's Air Force Service Pilots for Their Service During World War II by Deeming Such Service to Have Been Active Duty in the Armed Forces of the United States for Purposes of Laws Administered by the Veterans Administration** United States. **The Women with Silver Wings** Katherine Sharp Landdeck,2020-04-21 With the fate of the free world hanging in the balance women pilots went aloft to serve their nation A soaring tale in which at long last these daring World War II pilots gain the credit they deserve Liza Mundy New York Times bestselling author of Code Girls A powerful story of reinvention community and ingenuity born out of global upheaval Newsday When the Japanese attacked Pearl Harbor in December 1941 Cornelia Fort was already in the air At twenty two Fort had escaped Nashville s debutante scene for a fresh start as a flight instructor in Hawaii She and her student were in the middle of their lesson when the bombs began to fall and they barely made it back to ground that morning Still when the U S Army Air Forces put out a call for women pilots to aid the war effort Fort was one of the first to respond She became one of just over 1 100 women from across the nation to make it through the Army s rigorous selection process and earn her silver wings The brainchild of trailblazing pilots Nancy Love and Jacqueline Cochran the Women Airforce Service Pilots WASP gave women like Fort a chance to serve their country and to prove that women aviators were just as skilled as men While not authorized to serve in combat the WASP helped train male pilots for service abroad and ferried bombers and pursuits across the country Thirty eight WASP would not survive the war But even taking into account these tragic losses Love and Cochran s social experiment seemed to be a resounding success until with the tides of war turning Congress clipped the women s wings The program was disbanded the women sent home But the bonds they d forged never failed and over the next few decades they came together to fight for recognition as the military veterans they were and for their place in history **Women of ...
