*The Earth Moves* Dan Hofstadter, 2010-05-10 A cogent portrayal of a turning point in the evolution of the freedom of thought and the beginnings of modern science Celebrated controversial condemned Galileo Galilei is a seminal figure in the history of science Both Stephen Hawking and Albert Einstein credit him as the first modern scientist His 1633 trial before the Holy Office of the Inquisition is the prime drama in the history of the conflict between science and religion Galileo was then sixty nine years old and the most venerated scientist in Italy Although subscribing to an anti literalist view of the Bible as per Saint Augustine Galileo considered himself a believing Catholic Playing to his own strengths a deep knowledge of Italy a longstanding interest in Renaissance and Baroque lore Dan Hofstadter explains this apparent paradox and limns this historic moment in the widest cultural context portraying Galileo as both humanist and scientist deeply versed in philosophy and poetry on easy terms with musicians writers and painters

**Searching for Presence** Robert W. Greene, 2022-04-11 Yves Bonnefoy's writings have won him praise not only from readers and critics of French poetry but also thanks to translations into many other languages from readers and critics of poetry far beyond the francophone world Indeed Bonnefoy may be the most admired poet to have emerged in France since World War II Yet his art criticism dazzling in its scope possibly as original as his poetry is yet to receive the attention it deserves Searching for Presence Yves Bonnefoy's Writings on Art undertakes to fill that lacuna Elusive skirting the ineffable the notion of presence has haunted Bonnefoy for decades Central to the notion for the poet is the fleeting experience of mutuality between self and other of lightning transaction in a transient world of a shared mortal destiny hence a plenitude within finitude In an age when so many of his contemporaries seem to view any form of art as wallpaper spanning a void Bonnefoy's faith in presence is all the more welcome Focusing on his art criticism the aspect of the poet's oeuvre in which the notion of presence is the most salient this study tries to do justice to that fidelity
