Easum, 2025-10-01 Urban histories tend to be dominated by large global cities But what does the history of the modern colonial era look like from the perspective of smaller cities By shifting the focus from the metropolis to the secondary city of Chiang Mai this study provides an alternative narrative of the formation of the modern Thai state that highlights the overlap between European American and Siamese interests Through a detailed analysis of Chiang Mai's urban space the power dynamics that shaped the city come into focus as an urban scale manifestation of colonial forces albeit an incomplete one that allowed sacred space to become a source of conflict that was only resolved in the years before WWII Today as the city confronts the challenge of overdevelopment the legacy of the colonial era and the opportunity of heritage preservation this deep multi layered history of the power of and over urban space is vital **Spiritual Ecology** Leslie E. Encyclopaedia of Buddhist Art and Architecture Shiv Shanker Tiwary, 2008 One of the most enduring achievements of Indian civilization is undoubtedly its architecture which extends to a great deal more than the Taj Mahal or the temple complexes of Khajuraho and Vijaynagara The beginnings of the Buddhist school of architecture can be traced back to B C 255 when the Mauryan emperor Asoka established Buddhism as the state religion of his large empire **Tai Lands and Thailand** Andrew Walker, 2009 Studies of the Tai world often treat state and community as polar opposites the state produces administrative uniformity and commercialization while community sustains tradition local knowledge and subsistence economy This assumption leads to the conclusion that the traditional community is undermined by the modern forces of state incorporation and market penetration States rule and communities resist This book takes a very different view Using thematic and ethnographic studies from Thailand Laos Burma and southern China the authors describe modern forms of community where state power intersects with markets livelihoods and aspirations Modern community is not easily created nor is it inevitable but rapid social and economic change in the Tai world has provided many opportunities for new forms of

communal belonging to emerge Tai Lands and Thailand opens up fresh perspectives on a region in transition and the discussion promises to inform future studies of contemporary sociality in Southeast Asia
