

TRANSNATIONALISM

Transnationalism is a concept that refers to the connections, flow and exchange of economic, political and social processes across national borders.

DEFINITION

Transnationalism refers to the process where individuals and groups establish connections and networks across national boundaries, often involving a dual or multiple-country sense of belonging. It involves the complex interaction between and among different cultures, but lead to divided loyalties, identity confusion, and potential social tensions in host countries.

KEY THEORIES

- **Migrant Communities:** People who move overseas continue to maintain links with their home country. This creates a sense of connection that extends beyond national borders.
- **Global Companies:** Corporations such as Apple or Toyota operate in multiple countries at once reflecting an economic process known as transnational capitalism.
