Lapp,2014 **The Four Elements of Transformation: How to Create Radical and Sustainable Change** Dr. Janet Lapp,2015-03-10 CREATE RADICAL AND SUSTAINABLE PERSONAL CHANGE Have you read books that advise you to transform your life but fail to lay out the steps you can take that actually work This book lays out tested steps that actually work to create the results that you want Begin by developing your base then learn to focus and self discipline keep your energy high and your emotions in check and finally expand your work into where you know it could go The Four Elements system explains how to discover and develop the Elements in their correct order Complete exercises are given in the Four Elements Journal that stamp in changes By following this system change can be radical and sustainable ,

The Metaphysics of Light in the Hexaemeral Literature Isidoros C. Katsos,2023-02-14 This volume critically re evaluates the received interpretation of the nature of light in the ancient sources Isidoros C Katsos contests the prevalent view in the history of optics according to which pre modernity theorized light as subordinate to sight oculoctrism by examining in depth the contrary textual evidence found in early Christian texts It shows that from Philo of Alexandria and Origen to Basil of Caesarea and Gregory of Nyssa the Jewish Christian commentary tradition on the hexaemeral literature the biblical creation narrative reflected deeply on the nature and physicality of light for the purposes of understanding the structure and purpose of material creation Contemplation of nature allowed early Christian thinkers to conceptualize light as the explanatory principle of vision rather than subordinated to it Contrary to the prevalent view the hexaemeral literature necessitates a luminocentric interpretation of the theory of light of Plato s Timaeus in its reception history in the context of late antique cosmology Hexaemeral luminocentrism invites the reader of Scripture to grasp not only the sensible properties of light but also their causal principle as the first manifestation of the divine Logos in creation The hexaemeral metaphysics thus provides the missing ground of meaning of the early Christian language of light **AFCAT 15 Practice Sets and**

Philoponus: Against Proclus On the Eternity of the World 9-11
 Philoponus,2014-04-22 In one of the most original books of late antiquity Philoponus argues for the Christian view that matter can be created by God out of nothing It needs no prior matter for its creation At the same time Philoponus transforms Aristotle s conception of prime matter as an incorporeal something I know not what that serves as the ultimate subject for receiving extension and qualities On the contrary says Philoponus the ultimate subject is extension It is three dimensional extension with its exact dimensions and any qualities unspecified Moreover such extension is the defining characteristic of body Hence so far from being incorporeal it is body and as well as being prime matter it is form the form that constitutes body This uses but entirely disrupts Aristotle s conceptual apparatus Finally in Aristotle s scheme of categories this extension is not to be classified under the second category of quantity but under the first category of substance as a substantial quantity This volume contains an English translation of Philoponus commentary detailed notes and introduction and a bibliography
