**Russian Approaches to International Law** Lauri Mälksoo, 2015-03-05 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations This book addresses a simple question how do Russians understand international law Is it the same understanding as in the West or is it in some ways different and if so why It answers these questions by drawing on from three different yet closely interconnected perspectives history theory and recent state practice The work uses comparative international law as starting point and argues that in order to understand post Soviet Russia s state and scholarly approaches to international law one should take into account the history of ideas in Russia To an extent Russian understandings of international law differ from what is considered the mainstream in the West One specific feature of this book is that it goes inside the language of international law as it is spoken and discussed in post Soviet Russia especially the scholarly literature in the Russian language and relates this literature to the history of international law as discipline in Russia Recent state practice such as the annexation of Crimea in 2014 Russia s record in the UN Security Council the jurisprudence of the European Court of Human Rights prominent cases in investor state arbitration and the creation of the Eurasian Economic Union are laid out and discussed in the context of increasingly popular civilizational ideas the claim that Russia is a unique civilization and therefore not part of the West The implications of this claim for the future of international law its universality and regionalism are discussed

II. War. pt. III. Neutrality* Pitt Cobbett,1913      *Lectures on International Law* Sheldon Amos,1874      International Law Charles Ghequiere Fenwick,1924 The author presents fundamental principles of international law and the leading features of its practice The development of international law and the application of its general principles to concrete situations are discussed This early twentieth century interwar publication also explores laws of war and neutrality      *THE THEORY OF AMERICAN INTERNATIONAL LAW: ANALYSIS AND CRITICISM.* LAVERNE BURCHFIELD,1928      **Identification of Customary International Law** Michael Wood,Omri Sender,2024-11-07 Customary international law remains a central source of international law and the core of the international legal system It continues to draw the attention of lawyers especially at a time marked by the great expansion of international law and its increasing application in domestic and international courts Determining whether an applicable rule of customary international law exists is therefore of great practical concern but this important legal task is not always simple or straightforward This book serves as guidance to those seeking to determine the existence of rules of customary international law and their content It elaborates on the methodology for the identification of rules of customary international law and examines a host of questions concerning the process and evidence involved It does so by complementing the authoritative

work of the UN International Law Commission on this topic and by drawing upon a wealth of additional practice and writings Identification of Customary International Law provides an overview of the Commission s work and expands on it by addressing the nature and history of custom as a source of international law inquiring into each of the two constituent elements of customary international law namely a general practice and opinio juris explaining the value and limits of certain forms of evidence and throwing further light on such issues as the persistent objector rule and particular customary international law Practitioners and scholars alike will find this detailed treatment useful in seeking to determine the existence and content of any customary rule and in ensuring that arguments about customary international law are persuasive
