The Theory Of Three:

The Three-Way Decisions Method Based on Theory of Reliability with SV-Triangular Neutrosophic Numbers

Xiang Li ,Xianjiu Huang, Three way decisions as a decision making mode which is consistent with human cognition have been widely used in various fields In this paper we fuse the theory of reliability into the three way decisions method replace the conditional probability in the three way decisions method with reliability and then propose a novel three way decisions method We also describe the loss functions with single valued triangular neutrosophic numbers SVTNNs and propose an operator to calculate the score function of triangular neutrosophic numbers Then the result of decision is attained according to the principle of minimizing loss Finally we apply this method to the overhaul of machines in a factory which proves the practicability and effectiveness of the proposed methods Bulletin of the American Mathematical Society American
