The Third Icon:

The Painter Angelos and Icon-Painting in Venetian Crete Maria Vassilaki, 2023-04-28 The sixteen studies in this book include six specially translated from Greek and another two published here for the first time They deal with the art of painting in Crete at a time when the island was under Venetian rule The main emphasis is on the 15th century and especially on the painter Angelos More than thirty icons with his signature survive and at least twenty more can be reliably attributed to him Angelos was the most significant artist of a particularly significant era It was at this time that the centre of artistic production migrated from Constantinople the capital of the Byzantine Empire to Candia the capital of Venetian occupied Crete These studies try to reconstruct the personality of this late Byzantine painter Angelos not only through his icons but also through his will 1436 now in the State Archives in Venice In this context they also explore the status of the Cretan painter in society The large number of extant Cretan icons clearly indicates the striking increase in production from the 15th century onwards Similarly archival documents are used to examine the trade of icons in Crete and the way Cretan artists had to organize their workshops in order to meet the requirements of the market
