The Morality of Self-Defense and Military Action David B. Kopel, 2017-02-16 Shedding new light on a controversial and intriguing issue this book will reshape the debate on how the Judeo Christian tradition views the morality of personal and national self defense Are self defense national warfare and revolts against tyranny holy duties or violations of God s will Pacifists insist these actions are the latter forbidden by Judeo Christian morality This book maintains that the pacifists are wrong To make his case the author analyzes the full sweep of Judeo Christian history from earliest times to the present combining history scriptural analysis and philosophy to describe the changes and continuity of Jewish and Christian doctrine about the use of lethal force He reveals the shifting patterns of thought in both religions and presents the strongest arguments on both sides of the issue The book begins with the ancient Hebrews and Genesis and covers Jewish history through the Holocaust and beyond The analysis then shifts to the story of Christianity from its origins through the Middle Ages and the Reformation up the present day Based on this scrutiny the author concludes that contrary to popular belief the legitimacy of self defense is strongly supported by Judeo Christian scripture and commentary by philosophical analysis and by the respect for human dignity and human rights on which both Judaism and Christianity are based

Great War Modernism Nanette Norris, 2015-12-16 New Modernist Studies while reviving and revitalizing modernist studies through lively scholarly debate about historicity aesthetics politics and genres is struggling with important questions concerning the delineation that makes discussion fruitful and possible This volume aims to explore and clarify the position of the so called core of literary modernism in its seminal engagement with the Great War In studying the years of the Great War we find ourselves once more studying the giants about whom there is so much more to say as well as adding hitherto marginalized writers and a few visual artists to the canon The contention here is that these war years were seminal to the development of a distinguishable literary practice which is called modernism but perhaps could be further delineated as Great War modernism a practice whose aesthetic merits can be addressed through formal analysis This collection of essays offers new insight into canonical British American European modernism of the Great War period using the critical tools of contemporary expansionist modernist studies By focusing on war and on the experience of the soldier and of those dealing with issues of war and survival these studies link the unique forms of expression found in modernism with the fragmented violent and traumatic experience of the time

The Oise Aisne American Cemetery is the last resting place of 6 012 American soldiers who died fighting in a small portion of Northern France during the First World War The impressive cemetery is divided into four plots marked A to D However few visitors are aware that across the road behind the immaculate facade of the superintendent's office unmarked and completely surrounded by impassable shrubbery is Plot E a semi secret fifth plot that contains the bodies of ninety four American soldiers These were men who were executed for crimes committed in the European Theater of Operations during and just after the Second World War Originally the men whose death sentences were carried out were buried near the sites of their executions in locations as far afield as England France Belgium Germany Italy and Algeria A number of the men were executed in the grounds of Shepton Mallet prison in Somerset the majority of whom were hanged in the execution block with two being shot by a firing squad in the prison yard The executioner at most of the hangings was Thomas William Pierrepont assisted mainly by his more famous nephew Albert Pierrepont Then in 1949 under a veil of secrecy the plot of shame as it has become known was established in France The site does not exist on maps of the cemetery and it is not mentioned on the American Battle Monuments Commission's website Visits to Plot E are not encouraged Indeed public access is difficult because the area is concealed surrounded by bushes and is closed to visitors No

US flag is permitted to fly over the plot and the graves themselves have no names just small simple stones the size of index cards that are differentiated only by reference numbers Even underground the dishonored are set apart with each body being positioned with its back to the main cemetery In *The Plot of Shame* the historian Paul Johnson uncovers the history of Plot E and the terrible stories of wartime crime linked to it *House Documents* USA Congress House of Representatives,1894
