The Time And Eternity1:

Summa Theologiae, Prima Pars: Volume 1, The One God, QQ 1-26 Thomas Aquinas, Thomas de Vio Cajetan, 2023-06-23
When Leo XII promulgated Aeterni Patris in 1879 he stipulated that the Leonine or official edition of the Summa should always be printed in conjunction with Cajetan's Commentary For five hundred years they were studied together Generations were trained by reading through the Summa article by article with Cajetan's commentaries in hand Early printed editions of the Summa typically included them in a Talmudic arrangement as marginal text running around each article by Aquinas This edition imitates that example Recently serious thinkers of all denominations and none have found new reasons to be interested in St Thomas His text is deceptively simple yet important issues are handled in every article sometimes below the surface Cajetan extracts these hidden issues and explains and elaborates on them with remarkable affinity to modern analytical philosophy Part of that affinity lies in the use of modal logic a tool whose importance was overlooked between the Renaissance and the twentieth century The time is ripe for an analytically inspired translation of Thomas hence this volume Never until now has Cajetan's Commentary been put into English in its entirety William Marshner's translation is consistent with fidelity to the technical force of the original The translator's footnotes acknowledge what empirical science has made obsolete in the work of St Thomas and also make clear how much today's science would have saved Thomas useless labor This volume will for the first time make Cajetan's help available to the modern reader

Time and the Metaphysics of Relativity W.L. Craig, 2013-11-11 he present volume is part of a larger project which is the attempt to draft a T coherent doctrine of divine eternity and God's relationship to time In my God I Time and Eternity I argued that whether one construes divine eternity in terms of timelessness or of omnitemporality will depend crucially upon one's views about the objectivity of tensed facts and temporal becoming If one adopts a tensed or in McTaggart's terminology an A Theory of time then a coherent doctrine of divine eternity requires that one construe God at least since the moment of creation to exist temporally which implies that divine timelessness can be successfully maintained only if a tenseless or B Theory of time is correct Accordingly in my companion volumes The Tensed Theory of Time a Critical Examination and The Tenseless Theory of Time a Critical Examination I set for myself the task of adjudicating the A vs B Theory of time In the former volume I examine arguments for and against the A Theory of time and in the latter I turn to an examination of arguments for and against the B Theory This inquiry took me into a study of relativity theory its presuppositions and implications The paucity of integrative literature dealing with the concept of God and relativity theory is striking

T&T Clark Handbook of Christian Eschatology Markus Mühlhng, 2015-06-18 This textbook offers a systematic introduction to eschatology The first part introduces the historical approaches to eschatology The second part concerns the reasons for eschatological statements in light of important aspects of the doctrine of God and Christ The third part is devoted to different concepts of the relationship between eternity and time space and infinitude as well as the question of what is good true and beautiful Using a thematic

structure the multiple different approaches and concepts of modern eschatology are clearly presented and illuminated by the perspective of the classical teachings on the Last Things which are ultimately brought together in a synthesis This is an important contribution to a crucial part of the study of systematic theology

Jürgen Moltmann and the Work of Hope
M. Douglas Meeks, 2018-10-31 These essays reflect on the future of Christian theology in light of the contributions Jürgen Moltmann has made in his prolific career as one of the world's foremost theologians They are not a prediction of what is coming in the future of theology since God's own actions and human history for that matter are not predictable Expressed here is hope for what future theology should take seriously from Moltmann's work Moltmann broke the mold of 19th and 20th century theology by focusing consistently on God's promises of a new heaven and a new earth The result was a theological imagination that is utterly realistic delighting in the creative tension of theology that lives in an unfinished open field of negations and possibilities Hope for the promised future of God casts its light on present sufferings that contradict that future The prominent themes here focus on the contradictions of God's promises and God's justice The essays see clearly the human domination that leads to the oppression of nature the hatred of the poor the dominance of one gender over the other the migration of those who find no home in their homeland and the wounds of neocolonialism For Moltmann these sufferings do not belong simply to ethics but to the heart of theology The doctrines of creation redemption and new creation are fully engaged in the political economic ecological and social problems of this time Here lies the way ecumenism will be reborn in the future The essays argue that theology should not turn aside from Moltmann's main theme of the resurrection of the Crucified One and of the presence of God's future in the present Hope opens our eyes to the work of God's Spirit of Life and the affirmation of eternal life in the present The future of Christian theology should not miss the theme of joy in the face of sin death and evil and the celebration of God's cosmic all-inclusive future in which God will be at home in God's creation

The Evolution of Time: Studies of Time in Science, Anthropology, Theology Argyris Nicolaidis, Wolfgang Achtner, 2013-05-27 Time a fundamental component of human thought and experience is quite enigmatic and elusive when it comes to defining it In The Evolution of Time Studies of Time in Science Anthropology Theology scholars from the fields of physics mathematics biology neuroscience psychology philosophy and theology draw from their own field of knowledge and expertise and present their understanding of the time phenomenon Time as a dynamic interplay of being and becoming the different temporalities we encounter in nature the human dimension of time are all important issues presented and thoroughly analyzed in the e-book The e-book has a manifest trans-disciplinary character and it is a suitable for readers interested in evolution the dynamics of time and the complexity of our own conceptions of time

Mystical Theology and Platonism in the Time of Cusanus Jason Aleksander, Sean Hannan, Joshua Hollmann, Michael Moore, 2023-10-20 Mystical Theology and Platonism in the Time of Cusanus engages with the history of mystical theology and Neoplatonic philosophy through the lens of the 15th century philosopher and theologian Nicholas of Cusa The volume comprises nineteen essays that
