**A Political Philosophy** Roger

Scruton, 2006-01-01 Presents a defence of social order beginning from philosophical first principles which aims to be a systematic answer to liberal egalitarianism and also a defence of the Western social religious cultural and political inheritance This book also demonstrates that this inheritance is a reflection of the deepest truths about human nature

*Totalitarianism and Political Religions* Hans Maier, 2004 This book shows how new models by which to understand political history arose from the experience of modern despotic regimes Here the totalitarianism and political religions are discussed and tested in terms of their usefulness

**Totalitarianism and Political Religions, Volume 1** Hans

Maier, 2004-10-14 We are used to distinguishing the despotic regimes of the 20th century communism fascism National Socialism Maoism very precisely according to place and time origins and influences But what should we call that which they have in common On this question there has been and is still a passionate debate This book documents the first international conference on this theme a conference that took place in September of 1994 at the University of Munich The book shows how new models for understanding political history arose from the experience of modern despotic regimes Here the most important concepts totalitarianism and political religions are discussed and tested in terms of their usefulness

**Mill and the Liberal Tradition** Andrew Farrant, 2010-11-23 A PDF version of this book is available for free in open access via [www.tandfebooks.com](http://www.tandfebooks.com) as well as the OAPEN Library platform [www.oapen.org](http://www.oapen.org) It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 3.0 license and is part of the OAPEN UK research project

This book considers the relationship between Hayek and Mill taking issues with Hayek's criticism of Mill and providing a broader perspective of the liberal tradition Featuring contributions from the likes of Ross Emmett Leon Montes and Robert Garnett these chapters ask whether Hayek had an accurate reading of the ideas of Mill and Smith as well as considering themes such as sympathy and analytical egalitarianism that play a large part in the liberal tradition but less in work of Hayek These chapters argue that addition of these key ideas to the Hayekian corpus leads to a far broader understanding of the liberal tradition than that provided by Hayek

**The Crisis of Progress** John C. Caiazza, 2017-07-05

This book is about the concept of progress its separate varieties its current rejection and how it may be reconsidered from a philosophical and scientific basis John C Caiazza's main emphasis is on how science is understood as it has a direct impact on social values as expressed by prominent philosophers He argues that progress is at a standstill which presents a crisis for Western civilization Caiazza presents historical examples both of scientific inquiry and social and cultural themes to examine the subject of progress Beginning with the Whig model and progressive political values exemplified by Bacon and Dewey he also examines other variations the Enlightenment cosmopolitanism and totalitarianism Technology argues Caiazza also has a

stultifying effect on Western culture and to understand the idea of progress we must take a philosophic rather than a scientific point of view Modern cosmology has inevitable humanistic and theological implications and major contemporary philosophers reject social science in favour of ancient concepts of virtue and ethics In the end Caiazza writes that time is an agent not a neutral plain on which scientific and historical events occur We can expect technology to keep us in stasis or become aware of the possibility of transcendence This book will be of interest for students of scientific history and philosophy

Todd Huizinga,2016-02-16 What caused the eurozone debacle and the chaos in Greece Why has Europe s migrant crisis spun out of control over the heads of national governments Why is Great Britain calling a vote on whether to leave the European Union Why are established political parties declining across the continent while protest parties rise All this is part of the whirlwind that EU elites are reaping from their efforts to create a unified Europe without meaningful accountability to average voters *The New Totalitarian Temptation* Global Governance and the Crisis of Democracy in Europe is a must read if you want to understand how the European Union got to this point and what the European project fundamentally is This is the first book to identify the essence of the EU in a utopian vision of a supranationally governed world an aspiration to achieve universal peace through a global legal order The ambitions of the global governancers are unlimited They seek to transform not just the world s political order but the social order as well discarding basic truths about human nature and the social importance of tradition in favor of a human rights policy defined by radical autonomy and unfettered individual choice And the global governance ideology at the heart of the EU is inherently antidemocratic EU true believers are not swayed by the common sense of voters nor by reality itself Because the global governancers aim to transfer core powers of all nations to supranational organizations the EU is on a collision course with the United States But the utopian ideas of global governance are taking root here too even as the European project flames into rancor and turmoil America and Europe are still cultural cousins we stand or fall together The EU can yet be reformed and a commitment to democratic sovereignty can be renewed on both sides of the Atlantic **The New Criterion** ,1988 **The Totalitarian Claim of the Gospels** Dora Willson,1939

**The Marine Corps Gazette** ,1976 Midstream ,1979 Tranquillitas Ordinis George Weigel,1987 In recent years Roman Catholic bishops and activists have been highly visible in the public debate over issues such as nuclear arms control and U S policy in Central America Until now however the evolution of American Catholic thought on these questions has received little attention This book is the first comprehensive critical analysis of American Catholic thought on war and peace The author s purpose is to evaluate the post Vatican II transformation of the Church s approach to war peace issues and to point a wiser direction for its future development The book begins with a survey of American Catholicism s rich and sophisticated heritage of moral reasoning on war peace and political community In a major reinterpretation of American

Catholic history Weigel shows how the American Bishops development of a theology of democracy in the nineteenth and twentieth centuries enriched the Church s classic understanding of peace as political community Weigel thus challenges the now prominent idea that the U S Catholic bishops were not seriously involved in the war peace debate until the last decade A highlight of the book is its detailed intellectual portrait of John Courtney Murray S J whom Weigel calls the finest political theorist ever produced by the American Church Weigel then demonstrates how over the past generation American Catholic intellectuals and publicists began to abandon their heritage and thereby impoverished the theological and political argument over war and peace security and freedom The book analyzes the ideas of seven key figures in the transformation of the American Catholic war peace debate Dorothy Day Gordon Zahn Thomas Merton Daniel and Philip Berrigan James Douglass and J Bryan Hehir and critically explores the U S bishops recent involvement with nuclear and Central American policy Recovering and developing the classic American Catholic heritage Weigel argues is essential to creating a wiser theology and politics whose concern for both peace and freedom challenges realists and idealists alike Commentary ,1989 **Studies in the Literary Imagination** ,2013 **The Soviet Union Through French Eyes, 1945-85** Robert Desjardins,1988 *Capitalism and Socialism* Michael Novak,1979 The conference from which this volume stems was held at Airlie House in Warrenton Virginia from July 9 to 16 1978 Bibliography p 187 190
