The Tribal Image:

The Tribal Image William Fagg,1978-12 *Emerging Tribal Image* Shambu Lal Doshi,1997 With reference to Rajasthan India **Folk Icons and Rituals in Tribal Life** Pramod Kumar,1984 Study of Mina people from southern Rajasthan **The American Indian and the Problem of History** Calvin Martin,1987 North American Indians have traditionally held conceptions of history time and the universe that are vastly different from those of European civilizations How then can Western historians begin to write accurately and without bias about societies who shunned history and who performed in our Western vision and errand of history only through coercion Here eighteen prominent authors wrestle with the phenomenon that in writing about Indian white relations they are perforce trying to mesh two fundamentally different world views In pieces written expressly for this volume the contributors who include a cross section of historians anthropologists professional writers and native Americans cover such diverse topics as cultural pluralism and ethnocentrism native American dancing and ritual the experiences of native American women and attitudes toward the environment In considering the deep and chronic issues of Indian white relations these controversial essays look anew at Indian cultural ideals and restore them to their proper place in American history **Confronting al Qaeda** Martha L. Cottam,Joe W. Huseby,2016-03-22 Based on in depth interviews with tribal Sheiks involved in the Awakening and their American military counterparts Confronting al Qaeda is a study of decision making processes and the political psychology of the Sunni Awakening in al Anbar It traces the change in American military strategy that made the Awakening collaboration between the Sunni tribes and the U S forces possible It explains how the evolution of the tribal leaders perspective and of the American military strategy led to defeat al Qaeda in al Anbar The process of these changing mutual images is detailed as well as how the cooperation between groups led to further evolution of perceptions Political and military realities urgently forced these perceptual and social identity shifts initially but the process of cooperation and engagement accelerated these shifts through increasingly mutually beneficial cooperation and interaction during the battle with al Qaeda in Iraq *The Medium Is Still the Message* Grant N. Havers,2025-09-15 *The Medium Is Still the Message* presents Marshall McLuhan history s foremost philosopher of media as the indispensable guide for understanding the impact of technologies McLuhan 1911 1980 shows that media are not simply tools of communication they create new environments with transformational effects on politics economics culture identity religion and nature Grant N Havers argues that McLuhan s key insight the medium is the message is even more relevant today as humanity grapples with the unintended effects of new media As McLuhan demonstrated a lack of understanding about the power of media technologies allows these entities to become idols that enslave their makers At the same time they encourage human beings to act like gods who can reinvent reality itself all the while leading to the decline of literacy the weakening of democracy the resurgence of tribalism within the global village and the elusive search for identity in cyberspace *The Medium Is Still the Message* ultimately offers good news using McLuhan s
