Time Of Peace:

Time for Peace Luc Reyhler,2015-10-01 For building sustainable peace and security the time is always now Violence in our world extends beyond armed conflicts it exists in our social and economic structures not to mention in our destruction of the environment How can we build more sustainable development and peace In this innovative ambitious book Dr Luc Reyhler argues that we must drastically change our temperament or the way we deal with time He surveys the vast temporal landscape and considers its many dimensions such as how time relates to emotions religion and conflict and how our time horizons affect the natural world Using examples such as Hurricane Katrina and regime change in Libya Reyhler shows how time is misused in conflicts be it the failure to anticipate a disaster or the manipulation of time to create a false sense of urgency Ultimately he proposes a more adaptive attitude to time so that we can be proactive rather than reactive in our efforts at sustainable development and conflict resolution
