The Science of Time Travel Elizabeth Howell,2020-06-02 Travel back in time with Doctor Who the Terminator the X Men and all your favorite time travelers Science fiction is the perfect window into the possibilities and perils of time travel What would happen if you went back in time and killed your own grandparent If you knew how to stop a presidential assassination would time travel allow you to make your wish come true Can we use time travel as a tool to escape the destiny of our future or mistakes of the past The Science of Time Travel explores time travel through your favorite science fiction franchises from the classic time travel paradoxes of Star Trek to the universe crossing shenanigans of Doctor Who Discover the real science behind questions such as Can time travel really erase our past regrets like in A Christmas Carol Is it worth killing people in the past to prevent a horrible future like in Terminator What can we learn from living the same day over and over again like in Groundhog Day Could time travel destroy our right to privacy like in Deja Vu And so much more It s time to fire up the DeLorean to 88 mph jump into the TARDIS hiding in plain sight or warp space with the USS Enterprise to explore what time travel means for us

Time Travel in Popular Media Matthew Jones,Joan Ormrod,2015-03-27 In recent years numerous films television series comic books graphic novels and video games have featured time travel narratives with characters jumping backward forward and laterally through time No rules govern time travel in these stories Some characters move by machine some by magic others by unexplained means Sometime travelers can alter the timeline while others are prevented from causing temporal aberrations The fluid forms of imagined time travel have fascinated audiences and prompted debate since at least the 19th century What is behind our fascination with time travel What does it mean to be out of one s own era How do different media tell these stories and what does this reveal about the media s relationship to time This collection of new essays the first to address time travel across a range of media answers these questions by locating time travel narratives within their cultural historical and philosophical contexts Texts discussed include Doctor Who The Terminator The Georgian House Save the Date
