Timeshifting Creating More Time To Enjoy Your Life:

Time Shifting Stephan Rechtschaffen,1997-11-10 Do you ever feel so rushed that you can't stop to think That you don't have enough time to do your job well or even to read this paragraph carefully That's because you spend your time either speeding forward or thinking about the past few minutes without really concentrating on living in the present moment We all have the capacity to look at time and by doing so to step into a new awareness of it and experience its next dimension time freedom But we cannot just look with our eyes and understand with our mind we must experience it with all the facets of our being with all our senses with our perceptions our feelings and our heart Timeshifting is the method for doing this and how you can learn timeshifting is what this breakthrough book is about In Timeshifting Stephan Rechtschaffen teaches us that time is subjective not objective and that we can take back control of our lives by changing the way we think about time We can relearn how to live our lives to their fullest potential to have the time to enjoy ourselves our families and our jobs Timeshifting is not about time management it won't teach you how to do more in a shorter period of time It will however give you back all the time you need to accomplish what you want and you'll find that you are more relaxed less stressed out and better able to enjoy the best things in life
