## Tiny Traditions:

**Great Tradition and Little Traditions** Swami Agehananda Bharati, 1978 Jewish Studies on Premodern Periods Carl S. Ehrlich, Sara R. Horowitz, 2023-05-22 This volume examines new developments in the fields of premodern Jewish studies over the last thirty years. The essays in this volume, written by leading experts, are grouped into four overarching temporal areas: the First Temple, Second Temple, Rabbinic, and Medieval periods. These time periods are analyzed through four thematic methodological lenses: the social scientific history and society, the textual texts and literature, the material art, architecture, and archaeology, and the philosophical religion and thought. Some essays offer a comprehensive look at the state of the field, while others look at specific examples illustrative of their temporal and thematic areas of inquiry. The volume presents a snapshot of the state of the field, encompassing new perspectives, directions, and methodologies, as well as the questions that will animate the field as it develops further. It will be of interest to scholars and students in the field, as well as to educated readers looking to understand the changing face of Jewish studies as a discipline advancing human knowledge.

*Jesus and the Peasants* Douglas E. Oakman, 2008-01-01 While some of the chapters focus on systemic issues, others probe the depths of individual Gospel passages. The author's keen eye for textual detail, archaeological data, comparative materials, and systemic overviews make this volume a joy for anyone interested in understanding Jesus in his own context. The volume is organized into three interrelated parts: 1. political economy and the peasant values of Jesus; 2. the Jesus traditions within peasant realities; and 3. the peasant aims of Jesus.

**The Routledge Handbook of Jews and Judaism in Late Antiquity** Catherine Hezser, 2024-01-24 This volume focuses on the major issues and debates in the study of Jews and Judaism in late antiquity (third to seventh century C.E.), providing cutting-edge surveys of the state of scholarship, main topics, and research questions, methodological approaches, and avenues for future research. Based on both Jewish and non-Jewish literary and material sources, this volume takes an interdisciplinary approach involving historians of ancient Judaism, scholars of rabbinic literature, archaeologists, epigraphers, art historians, and Byzantinists. Developments within Jewish society and culture are viewed within the respective regional, political, cultural, and socioeconomic contexts in which they took place. Special focus is given to the impact of the Christianization of the Roman Empire on Jews from administrative, legal, social, and cultural points of view. The contributors examine how the confrontation with Christianity changed Jewish practices, perceptions, and organizational structures, such as, for example, the emergence of local Jewish communities around synagogues as central religious spaces. Special chapters are devoted to the eastern and western Jewish Diaspora in Late Antiquity, especially Sasanian Persia, but also Roman Italy, Egypt, Syria, and Arabia, North Africa, and Asia Minor, to provide a comprehensive assessment of the situation and life experiences of Jews and Judaism during this period. *The Routledge Handbook of Jews and Judaism in Late Antiquity* is a critical and methodologically sophisticated survey of current scholarship, aimed primarily at students and scholars of Jewish Studies, Study of Religions, Patristics, Classics, Roman and Byzantine Studies, Iranology, History of Art, and Archaeology. It is a

valuable resource for anyone interested in Judaism and Jewish history      *The Bioarchaeology of Urbanization* Tracy K. Betsinger, Sharon N. DeWitte, 2020-11-05 Urbanization has long been a focus of bioarchaeological research but what is missing from the literature is an exploration of the geographic and temporal range of human biological demographic and sociocultural responses to this major shift in settlement pattern Urbanization is characterized by increased population size and density and is frequently assumed to produce negative biological effects However the relationship between urbanization and human health requires careful examination given the heterogeneity that exists within and between urban contexts Studies of contemporary urbanization have found both positive and negative outcomes which likely have parallels in past human societies This volume is unique as there is no current bioarchaeological book addressing urbanization despite various studies of urbanization having been conducted Collectively this volume provides a more holistic understanding of the relationships between urbanization and various aspects of human population health The insight gained from this volume will provide not only a better understanding of urbanization in our past but it will also have potential implications for those studying urbanization in contemporary communities      *Traditions, Superstitions, and Folk-Lore, (chiefly Lancashire and the North of England: ) their affinity to others ..., their Eastern origin and mythical significance* Charles HARDWICK (of Preston.), 1872      *Traditions, Superstitions and Folk-lore, (chiefly Lancashire and the North of England) ... Their Eastern Origin and Mythical Significance* Charles Hardwick, 1872      *Traditions, Superstitions and Folk-lore (chiefly Lancashire and the North of England)* Charles Hardwick, 1872      **An Academic Skating on Thin Ice** Peter Worsley, 2008 Peter Worsley's studies at Cambridge were interrupted by war service as a communist officer in the colonial forces in Africa and India and it was here that he developed a keen interest in anthropology He worked in mass education in Tanganyika and then studied with Max Gluckman at Manchester University Banned from re-entering Africa Worsley went to Australia where he was banned once more this time from New Guinea yet he did succeed in completing field research for his Ph D on an Australian Aboriginal tribe His subsequent book on Cargo cults in Melanesia is now regarded as a classic but his left wing politics ensured that he could not get a job in anthropology so he switched to sociology on his return to Manchester

**Encyclopaedia of the History of Science, Technology, and Medicine in Non-Western Cultures** Helaine Selin, 2013-11-11 The Encyclopaedia fills a gap in both the history of science and in cultural studies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a translator of Greek scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to legitimize the study of other cultures' science Our aim is not to claim the superiority of other cultures but to engage in a mutual exchange of ideas The Western academic divisions of science, technology, and medicine have been united in the Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance in the number of reference

works devoted to the study of Western science and encourages awareness of cultural diversity The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both scientific and philosophical issues to the extent that this work does xi PERSONAL NOTE FROM THE EDITOR Many years ago I taught African history at a secondary school in Central Africa

**Tales, Tunes, and Tassa Drums** Peter Manuel,2015-01-30 Today s popular tassa drumming emerged from the fragments of transplanted Indian music traditions half forgotten and creatively recombined rearticulated and elaborated into a dynamic musical genre A uniquely Indo Trinidadian form tassa drumming invites exploration of how the distinctive nature of the Indian diaspora and its relationship to its ancestral homeland influenced Indo Caribbean music culture Music scholar Peter Manuel traces the roots of neotraditional music genres like tassa drumming to North India and reveals the ways these genres represent survivals departures or innovative elaborations of transplanted music forms Drawing on ethnographic work and a rich archive of field recordings he contemplates the music carried to Trinidad by Bhojpuri speaking and other immigrants including forms that died out in India but continued to thrive in the Caribbean His reassessment of ideas of creolization retention and cultural survival defies suggestions that the diaspora experience inevitably leads to the loss of the original culture while also providing avenues to broader applications for work being done in other ethnic contexts
