THE THIRD CASSIDY McCABE MYSTERY

Vendetta's Victim

ALEX MATTHEWS

Vendettas Victim

Eliakim Littell, Robert S. Littell

Vendettas Victim:

Vendetta's Victim Alex Matthews, 1999-04 Cassidy's life is reasonably tranquil until an angry woman appears at her door with a letter. When Cass insists she doesn't know the letter writer Cliff, the woman leaves the letter and storms off. In the letter, Cliff claims to have been a client himself and urges the woman to seek counseling. When a second such woman shows up, Cassidy learns that Cliff, a man with a vendetta, is on a crusade to seduce and savagely victimize women. Her new client refuses to go to the police, and Cassidy, the only person who knows the full extent of Cliff's viciousness, feels compelled to stop him.

Homicide, Race, and Justice in the American West, 1880-1920 Clare Vernon McKanna, 1997-02 In a chilling scene in the film *Unforgiven*, Clint Eastwood as the gunman stands over a wounded Gene Hackman, the sheriff, aiming a rifle at his head. "I don't deserve this to die like this," says Hackman. Eastwood replies, "Deserve's got nothing to do with it," cocks his rifle, and fires point blank at his helpless victim. This scenario dramatically brings home to the viewer what historians have long debated, and hundreds of other films and books suggest: the turn of the century West was a violent time and place. Ranchers, miners, deputy sheriffs, teenagers, and old men, occasionally even housewives and mothers, found themselves at the business end of a shotgun or a .38 revolver. Yet since western historians tend to portray violence as essentially episodic—frontier gunfights, range wars, vigilante movements, and the like—solid data has been hard to come by. As a beginning point for actually measuring lethal violence and assessing the administration of justice here at last is a detailed and well-documented study of homicide in the American West. Comparing data from representative areas—Douglas County, Nebraska; Las Animas County, Colorado; and Gila County, Arizona—this book reveals a level of violence far greater than many historians have believed, even surpassing eastern cities like New York and Boston. Clashing cultures and transient populations, a boomtown mentality, easy availability of alcohol and firearms, these and many other factors come under scrutiny as catalysts in the violence that permeated the region. By comparing homicide data, including coroner's inquests, indictments, plea bargains, and sentences across both racial and regional lines, the book also offers persuasive evidence that criminal justice systems of the Old West were weighted heavily in favor of defendants who were white and against those who were African American, Native American, or Mexican. Packed with information, this is a book for students and scholars of western history, social history, criminology, and justice studies. Western history buffs will be captivated by colorful anecdotes about the real West where guns could and did blaze over anything from love trysts to vendettas to too much foam on the beer. From whatever perspective, all readers are sure to find here a well-constructed framework for understanding the West as it was and for interpreting the region as it moves into the future.

A History of Murder Pieter Spierenburg, 2013-04-18 This book offers a fascinating and insightful overview of seven centuries of murder in Europe. It tells the story of the changing face of violence and documents the long-term decline in the incidence of homicide. From medieval vendettas to stylized duels, from the crime passionnel of the modern period right up to recent public anxieties about serial killings and underworld assassinations, the book offers a richly

illustrated account of murder's metamorphoses In this original and compelling contribution Spierenburg sheds new light on several important themes He looks for example at the transformation of homicide from a private matter followed by revenge or reconciliation into a public crime always subject to state intervention Combining statistical data with a cultural approach he demonstrates the crucial role gender played in the spiritualisation of male honour and the subsequent reduction of male on male aggression as well as offering a comparative view of how different social classes practised and reacted to violence This authoritative study will be of great value to students and scholars of the history of crime and violence criminology and the sociology of violence At a time when murder rates are rising and public fears about violent crime are escalating this book will also interest the general reader intrigued by how our relationship with murder reached this point
