Words about Words about Words Murray Krieger, 2019-12-01 Originally published in 1987 In *Words about Words about Words* Murray Krieger advances his ongoing dialogue with the rich diversity of contemporary literary theory and elaborates on his own position as it grows out of an opposing relation to much of current criticism Krieger examines the kinds of ideologies and ontologies smuggled into literary theory that purports to be anti ideological and anti ontological He explores the extent to which critical fashions dictate the development of theory and the

reasons why particular theories exclude certain kinds of literary works in favor of others Under such circumstances Krieger asks What becomes of the critic's task of evaluation Further what is the relation of the idea of progress to criticism and the arts and what is the effect of these notions on cultural and intellectual institutions He seeks an alternative to the deterministic tendencies of the new historicism in viewing the relations of literature and literary criticism to society Progressing from broad questions to more focused critical problems and close readings Krieger reviews the aesthetic tradition as it has evolved from Kant He engages in debate with deconstructionist critics about the role of symbol and allegory as descriptions of ways in which poems succeed or fail in constructing their verbal universe And he argues that for all its brilliance deconstruction has not yet been able to fulfill the social or academic functions of the older aesthetic based disciplines that it set out to deconstruct

Surveying the expanding conflict in Europe during one of his famous fireside chats in 1940 President Franklin Roosevelt ominously warned that we know of other methods new methods of attack The Trojan horse The fifth column that betrays a nation unprepared for treachery Spies saboteurs and traitors are the actors in this new strategy Having identified a new type of war a shadow war being perpetrated by Hitler's Germany FDR decided to fight fire with fire authorizing the formation of the Office of Strategic Services OSS to organize and oversee covert operations Based on an extensive analysis of OSS records including the vast trove of records released by the CIA in the 1980s and 90s as well as a new set of interviews with OSS veterans conducted by the author and a team of American scholars from 1995 to 1997 *The Shadow War Against Hitler* is the full story of America's far flung secret intelligence apparatus during World War II In addition to its responsibilities generating processing and interpreting intelligence information the OSS orchestrated all manner of dark operations including extending feelers to anti Hitler elements infiltrating spies and sabotage agents behind enemy lines and implementing propaganda programs Planned and directed from Washington the anti Hitler campaign was largely conducted in Europe especially through the OSS's foreign outposts in Bern and London A fascinating cast of characters made the OSS run William J Donovan one of the most decorated individuals in the American military who became the driving force behind the OSS's genesis Allen Dulles the future CIA chief who ran the Bern office which he called the big window onto the fascist world a veritable pantheon of Ivy League academics who were recruited to work for the intelligence services and not least Roosevelt himself A major contribution of the book is the story of how FDR employed Hitler's former propaganda chief Ernst Putzi Hanfstaengl as a private spy More than a record of dramatic incidents and daring personalities this book adds significantly to our understanding of how the United States fought World War II It demonstrates that the extent and limitations of secret intelligence information shaped not only the conduct of the war but also the face of the world that emerged from the shadows
