**Startup Program Design: A Practical Guide for Creating Accelerators and Incubators at Any Organization**  
Paolo Lombardi, Adam Berk, 2022-06-28  
Design and execute a powerful startup program that delivers value for all parties involved. Startup accelerators, business incubators, Hackathons. These are the hallmarks of the innovation ecosystem development practices used to discover, launch and scale the most forward-looking startups of the last decade. If you want to adopt these approaches to your own business but aren't sure how to implement them, now's the time to master the practices of today's most successful early-stage investors. In *Startup Program Design*, two seasoned veterans deeply versed in startup engagement programs provide you with the tools to introduce open innovation practices to your organization. While other books on innovation management tend to be conceptual at the expense of hands-on experience, *Startup Program Design* is a practical manual vertically focused on preparing the organization, identifying the right strategy and designing an attractive and effective offer. Filled with real-world examples, interviews with program managers, lessons learned and diagrams and canvases that outline a step-by-step logical sequence, *Startup Program Design* points you toward results that are scalable and repeatable. Whether you're an innovation manager, executive consultant, service designer, business owner or startup community activist, this first-of-its-kind guide offers a radical new framework for true innovation.

**Digital Entrepreneurship and the Sharing Economy**  
Evgueni Vinogradov, Birgit Leick, Djamchid Assadi, 2021-07-15  
The digital and increasingly digitised world is shaped by the interplay of new technological opportunities and ubiquitous societal trends. Both lead to drastic changes: artificial intelligence, AI, cryptocurrencies and block chain technologies, internet of things, technology-based surveillance and other disruptive innovations. These developments facilitate the rise of the sharing economy and open for a variety of new entrepreneurial opportunities that businesses can take up. The novel entrepreneurial opportunities, however, imply a paradigmatic shift in the understanding of entrepreneurship. This book combines digital entrepreneurship with the sharing economy. It presents cutting-edge research for scholars and practitioners interested in either one of the topics: digital entrepreneurship or sharing economy or their connection. The book addresses three major ways to become entrepreneurial in the sharing economy: digital entrepreneurship through creating novel sharing economy platforms; technology entrepreneurship through the exploitation of sharing economy platforms and business model innovation; or business model change influenced by the sharing economy. The book also highlights governance questions on digital entrepreneurship in the sharing economy, which are highly relevant for businesses, the economy and society. The book will be of interest to researchers, academics and students in the field of business and entrepreneurship, with a special focus on digital entrepreneurship.
