The Fossil:

Activism and the Fossil Fuel Industry Andrew Cheon, Johannes Urpelainen, 2018-02-06 In less than a decade activism against the fossil fuel industry has exploded across the globe While environmentalists used to focus on legislative goals such as carbon emissions trading or renewable energy policies today the most prominent activists directly attack the fossil fuel industry This timely book offers a comprehensive evaluation of different types of activism the success and impact of campaigns and activities and suggestions as to ways forward This book is the first systematic treatment of the anti fossil fuel movement in the United States An accessible and readable text it is an essential reference for scholars policymakers activists and citizens interested in climate change fossil fuels and environmental sustainability The entire book or chapters from it can be used as required or supplementary material in various courses at the undergraduate and graduate level As the book is not technically challenging but contains a comprehensive review of climate change fossil fuels and the literature on environmental activism it can be used as an accessible introduction to the anti fossil fuel campaign across disciplines

Climate Justice Ravi Kanbur, Henry Shue, 2018-10-17 Climate justice requires sharing the burdens and benefits of climate change and its resolution equitably and fairly It brings together justice between generations and justice within generations In particular it requires that attempts to address justice between generations through various interventions designed to curb greenhouse emissions today do not end up creating injustice in our time by hurting the currently poor and vulnerable The United Nations Sustainable Development Goals SDGs summit in September 2015 and the Conference of Parties COP to the Framework Convention on Climate Change in Paris in December 2015 brought climate change and its development impact centre stage in global discussions In the run up to Paris Mary Robinson former President of Ireland and UN Secretary General's Special Envoy for Climate Change instituted the Climate Justice Dialogue to mobilize political will and creative thinking to shape an ambitious and just international climate agreement in 2015 The editors of this volume an economist and a philosopher served on the High Level Advisory Committee of the Climate Justice Dialogue They noted the overlap and mutual enforcement between the economic and philosophical discourses on climate justice But they

also noted the great need for these strands to come together to support the public and policy discourse Climate Justice Integrating Economics and Philosophy is the result Bringing together contributions from economists and philosophers Climate Justice illustrates the different approaches how they overlap and interact and what they have already learned from each other and might still have to learn **The Farmer's Library** ,1848 The Geology and Palaeontology of Queensland and New Guinea: Text Robert Logan Jack,1892 **The Proceedings of the Iowa Academy of Science** Iowa Academy of Science,1889 List of members in each volume The Annals & Magazine of Natural History ,1888 *Records* Geological Survey of Victoria,1917 **Annual Report** Iowa State Horticultural Society, Des Moines,1893 **Annals of Botany** Isaac Bayley Balfour,Roland Thaxter,Vernon Herbert Blackman,1916 Vols 1 13 include Botanical necrology for 1887 89 vols 1 4 include section called Record of current literature **Popular Mechanics Magazine** ,1923
