Understanding World Religions in 15 Minutes a Day Garry R. Morgan, 2012-09-01 User Friendly Beginner's Guide to World Religions The world is becoming more integrated What once seemed like the religions of exotic faraway lands are now practiced by families next door These short easily digestible readings give an overview of the beliefs histories and practices of dozens of religions including Islam Buddhism Hinduism Christianity and many more Garry Morgan blends the knowledge of a college professor with real world experience and an accessible style Broken into forty brief chapters this book can be used as a reference for those who need quick and clear answers or read straight through by curious readers *Specters of Paul* Benjamin H. Dunning, 2011-02-07 The first Christians operated with a hierarchical model of sexual difference common to the ancient Mediterranean with women considered to be lesser versions of men Yet sexual difference was not completely stable as a conceptual category across the spectrum of formative Christian thinking Rather early Christians found ways to exercise theological creativity and to think differently from one another as they probed the enigma of sexually differentiated bodies In *Specters of Paul* Benjamin H Dunning explores this variety in second and third century Christian thought with particular attention to the ways the legacy of the apostle Paul fueled shaped and also constrained approaches to the issue Paul articulates his vision of what it means to be human primarily by situating human beings between two poles creation Adam and resurrection Christ But within this framework where does one place the figure of Eve and the difference that her female body represents Dunning demonstrates that this dilemma impacted a range of Christian thinkers in the centuries immediately following the apostle including Clement of Alexandria Irenaeus of Lyons Tertullian of Carthage and authors from the Nag Hammadi corpus While each of these thinkers attempts to give the difference of the feminine a coherent place within

a Pauline typological framework Dunning shows that they all fail to deliver fully on the coherence that they promise Instead sexual difference haunts the Pauline discourse of identity and sameness as the difference that can be neither fully assimilated nor fully ejected a conclusion with important implications not only for early Christian history but also for feminist and queer philosophy and theology **Art in America and Elsewhere** ,1927 *History of the Military Company of the Massachusetts, Now Called the Ancient and Honorable Artillery Company of Massachusetts* Oliver Ayer Roberts,1895 *The Wisconsin Agriculturist* ,1907 *Year Books of the Reign of King Edward the Third* Great Britain.
