Conservatism among the Iroquois at the Six Nations Reserve Annemarie Anrod Shimony, 1994-07-01 Annemarie Anrod Shimony s classic work clearly shows the contemporary cultural and religious crises that face the Longhouse Iroquois at the Six Nations Reserve Ontario Shimony presents a lucid and eloquent account of the survival of the Native American tradition which is struggling to maintain political and cultural autonomy in an ever changing modern world Based on original field work dating from 1953 to 1961 and supplemented by new material describing changes during the last thirty years Shimony s work is once again the most comprehensive ethnography of the largest extant traditional Iroquoian community Some of the material discussed includes the social organization the system of hereditary chiefs the beliefs and practices of the Longhouse

religion the events of the Iroquoian life cycle and the extensive medicinal and witchcraft aspects of the culture Additional areas of focus include the rituals of the agricultural calendar and Iroquois conceptions of death and burial rituals As Elizabeth Tooker wrote in *Indians of the Northeast* Shimony's monograph is next to Morgan's *League* the most important general description of the Iroquois With its new material added *Conservatism among the Iroquois* is once again required reading for anyone interested in Native American culture

Myths and Legends of the Mississippi Valley and the Great Lakes Various Authors, 1916-01-01 MYSTERY magic and manitoes abound in the land of Hiawatha in the land of the Ojibwas among the green islands graceful and beautiful lying amidst the dancing blue waters when the sun shines over Gitche Gomee the Great Water Manitoes great and mighty lived in the cool depths of the mighty forests in the rivers and lakes and even in the snows of winter And adventures there were in those early days amongst these islands of the North when manitoes directed the affairs of men But the animal fathers lived upon the earth before there came the two legged walkers There were many animals There were many beavers It was the beavers who made Gitche Gomee the Great Water They made it by building two dams The first they built at the Grand Sault and the second was five leagues below When Great Hare came up the river he said This must not be so Therefore he stepped upon the first dam But he was in haste He did not break it down therefore there are now great falls and whirlpools at that place But at the second dam Great Hare stepped upon it mightily therefore there are now few falls and only a little swirling water at that place Great Hare was very mighty When he chased Beaver he stepped across a bay eight leagues wide Around Michilimackinack was the land of Great Hare There amongst the green islets
