The Future Of Religion:

The Future of Religion Rodney Stark, William Sims Bainbridge, 1985 Religion is alive and well in the modern world and the social scientific study of religion is undergoing a renaissance For much of this century respected social theorists predicted the death of religion as inevitable consequence of science education and modern economics But they were wrong Stark and Bainbridge set out to explain the survival of religion Using information derived from numerous surveys censuses historical case studies and ethnographic field expeditions they chart the full sweep of contemporary religion from the traditional denominations to the most fervent cults This wealth of information is located within a coherent theoretical framework that examines religion as a social response to human needs both the general needs shared by all and the desires specific to those who are denied the economic rewards or prestige enjoyed by the privileged By explaining the forms taken by religions today Stark and Bainbridge allow us to understand its persistence in a secular age and its prospects for the future

After God Don Cupitt, 1997-04-18 Considers the fate of religion the evolution of religious belief from the dawn of the gods to their twilight and tomorrow Challenges us to see religion less as an ideology and more as a tool kit a set of techniques perhaps an art form enhancing our lives the way that literature and art do

The Future of Religion Richard Rorty, Gianni Vattimo, 2005-02-02 Though coming from different and distinct intellectual traditions Richard Rorty and Gianni Vattimo are united in their criticism of the metaphysical tradition The challenges they put forward extend beyond philosophy and entail a reconsideration of the foundations of belief in God and the religious life They urge that the rejection of metaphysical truth does not necessitate the death of religion instead it opens new ways of imagining what it is to be religious ways that emphasize charity solidarity and irony This unique collaboration which includes a dialogue between the two philosophers is notable not only for its fusion of pragmatism Rorty and hermeneutics Vattimo but also for its recognition of the limits of both traditional religious belief and modern secularism In *Anticlericalism and Atheism* Rorty discusses Vattimo's work *Belief and* argues that the end of metaphysics paves the way for an anti essentialist religion Rorty's conception of religion determined by private motives is designed to produce the gospel's promise that henceforth God will not consider humanity as a servant but as a friend In *The Age of Interpretation* Vattimo who is both a devout Catholic and a frequent critic of the church explores the surprising congruence between Christianity and hermeneutics in light of the dissolution of metaphysical truth As in hermeneutics interpretation is central to Christianity which introduced the world to the principle of interiority dissolving the experience of objective reality into listening to and interpreting messages The lively dialogue that concludes this volume moderated and edited by Santiago Zabala analyzes the future of religion together with the political social and historical aspects that characterize our contemporary postmodern postmetaphysical and post Christian world

The Future of Religion and the Religion of the Future Theodore John Rivers, 2012 In *The Future of Religion and the Religion of the Future* Theodore John Rivers explores the changing relationship between technology and religion Rivers draws upon his expertise in

the fields of medieval and religious history to discuss how the promotion of Christianity and monasticism in the Middle Ages began a process that has lent religious undertones to the way in which we interact with modern technology Rivers ultimately suggests that the growing presence of technology makes it a likely candidate for the next religious form competing with all the major religions in place today

The Future of God Stephen R. Schwalbe, 2025-05-30 This book reviews the three Abrahamic faiths Judaism Islam and Christianity to determine how humankind will accommodate God in the future While there are many publications about the future of God or the future of religion they tend to reflect a specific academic field such as theology or sociology This book reviews the future of God reflected in four primary academic fields including theology dealing directly with God and religion sociology addressing how societies evolved with God and religion biology dealing with the scientific evidence of the existence of God and physics addressing God's intelligent design of the universe Then the book analyzes each field's future projections for God in order to determine the most likely future In the end the book discusses a possible future religion based on the academic review of the future of God

The Religion of the Future Roberto Mangabeira Unger, 2016-10-25 A new philosophy of religion for a secular world How can we live in such a way that we die only once How can we organize a society that gives us a better chance to be fully alive How can we reinvent religion so that it liberates us instead of consoling us These questions stand at the center of Roberto Mangabeira Unger's *The Religion of the Future* an argument for both spiritual and political revolution It proposes the content of a religion that can survive without faith in a transcendent God or in life after death According to this religion the religion of the future human beings can be more human by becoming more godlike not just later in another life or another time but right now on Earth and in their own lives They can become more godlike without denying the irreparable flaws in the human condition our mortality groundlessness and insatiability
