Egerton,2000-11-09 Gabriel's Rebellion tells the dramatic story of what was perhaps the most extensive slave conspiracy in the history of the American South Douglas Egerton illuminates the complex motivations that underlay two related Virginia slave revolts the first in 1800 led by the slave known as Gabriel and the second called the Easter Plot instigated in 1802 by one of his followers Although Gabriel has frequently been portrayed as a messianic Samson like figure Egerton shows that he was a literate and highly skilled blacksmith whose primary goal was to destroy the economic hegemony of the merchants the only whites he ever identified as his enemies According to Egerton the social political and economic disorder of the Revolutionary era weakened some of the harsh controls that held slavery in place during colonial times Emboldened by these conditions a small number of literate slaves most of them highly skilled artisans planned an armed insurrection aimed at destroying slavery in Virginia The intricate scheme failed as did the Easter Plot that stemmed from it and Gabriel and many of his followers were hanged By placing the revolts within the broader context of the volatile political currents of the day Egerton challenges the conventional understanding of race class and politics in the early days of the American republic      **Calendar of State Papers** Great Britain.
