The Last Train From Canton:

The Last Train from Canton James Leonard Johnson, 1981-01-01 *Mysterium and Mystery* William David Spencer, 1992
A reprint of the first book on the topic of the cleric as a crime solver in fiction *Mysterium and Mystery* by William David Spencer is a primary reference of meticulous scholarship for anyone interested in mystery literature **The Last Train of Christmas** Kaye Jacobs Volk, 1997 A classic story of a father and son learning the meaning of Christmas Geneva, Zurich, Basel Nicolas Bouvier, Gordon A. Craig, Lionel Gossman, 2014-07-14 Recognized by historians and politicians as a model for European unity Switzerland is nonetheless a difficult country to understand as a whole Whereas individual Swiss cities have strong identities in the international political cultural and economic arenas the country itself seems to be less than the sum of its parts To capture the elusive spirit of Switzerland four eminent writers explore the roots of its political unity and cultural diversity in a series of urban portraits Their observations make for both good storytelling and insightful social commentary Nicolas Bouvier offers a quick paced history of Geneva the city John Calvin had envisioned as a radiating center of godliness international in its scope and legal in its methods the home of the Red Cross and the League of Nations and since 1945 the location of numerous disarmament and diplomatic conferences Gordon Craig examines Zurich the city of the militant religious reformer Huldrych Zwingli whose centralizing political zeal was harnessed by subsequent generations of Zurichers to lead Switzerland in its modernization Today s economically powerful Zurich is analyzed in terms of its liberal past as a refuge for political activists and artists and in terms of its current generational divisions on moral and cultural questions Finally Lionel Gossman explores the conciliatory Basel of Erasmus showing how vigorous independence resourcefulness and remembrance of its humanist traditions shaped the city s culture and economy Tying together important themes in the histories of these cities Carl Schorske focuses his introduction on how Switzerland has capitalized on their cultural differences and refined the art of political negotiation to serve a wide range of civic interests Originally published in 1994 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Early Years and Late Reflections** Emil P. McCain William David McCain, 1953 **Public Documents of Massachusetts** Massachusetts, 1897 **The Broken Wave** Roy Hofheinz, 1977 This book is a sophisticated and deeply

researched volume on Mao Tse tung s early leadership and on the formative years of the Chinese Communist Peasant movement It has been axiomatic in Asian studies that knowledge of the early years of Chinese communism would throw the most light on modern happenings In this landmark volume Hofheinz provides the much needed map for understanding Hofheinz shows how the rural revolution began dissects with exquisite care the mentalities of the first leaders and assesses the early gropings of peasant revolutionaries toward class struggle He explains why Mao and others came to believe that the huge rural population was the most powerful force in China and that warfare against any visible enemies constituted progress for the Communist cause Yet the first Chinese Communists failed miserably both as members of the Kuomintang coalition and on their own The reasons for the great debacle of the 1920s are set out in this book for the first time in all their complexity As important as this history is Hofheinz declares the lessons Mao learned from his defeats are of even greater significance Mao and his followers shaped every decision in later years to avoid the errors of the past The author demonstrates how Mao used ruralism militarization worship of numbers and not territory and a fierce autonomy from other political groups to gain his ends [History of Litchfield County, Connecticut](#) ,1881 **Current Encyclopedia** ,1901
