Politics and Underdevelopment: The Case of Guyana

Tarron Khemraj

Introduction

The main patronage system evolving in the post-1992 period is known as Elected Oligarchy (EO), a system under which the Peoples Progressive Party/Civic (PPP/C) sought to mould a supportive business class. EO depended on the ethnic masses of PPP supporters to turn out and vote strategically for their elites on the day of election. This form of governance, however, was bound to result in opposition and conflict given the bi-communal and fractured nature of the society. Immediately after losing the 1992 election, the Peoples National Congress/Reform (PNC/R) – which is now the major partner in the governing Alliance, A Partnership for National Unity (APNU) – assumed the responsibility of explicit representation of the African Guyanese population. It accused the PPP/C very early on of ‘ethnic cleansing’ (Hinds 2010, 95). The PPP/C’s system of patronage had a more free-market flair, while the pre-1992 system of patronage under the PNC,¹ Party Paramountcy (PP), took the form of Co-operative Socialism.²

Pro-ethnic voting by the two dominant groups – East Indian and African masses – is endogenous or is jointly determined by external factors rooted in history, geography, production structure, and foreign price shocks. The African masses cannot know for certain how the Indian masses will vote on the day of secret ballot. They might be willing to vote for an independent political party, but they cannot have perfect information regarding how East Indian masses will vote on the day of election. On the other hand, the largest number of East Indian masses might also be willing to vote for a third party, but they also cannot know for certain that most Afro-Guyanese will do the same. The respective masses (the overall majority) also perceive – rightly or wrongly – that their economic interests would be harmed if the

The Political Economy of Underdevelopment Tamás Szentes,1976 *The Political Economy of Underdevelopment* S. B. D. de Silva,2012-05-23 First published in 1982 this reissue deals with the theory of underdevelopment as Dr de Silva attempts a synthesis between the internal and external aspects of underdevelopment and in the Marxist tradition focuses on the impact of the external on the internal as the dominant reality Viewing underdevelopment as a problem in the non transformation to capitalism this analysis is in terms of the character of the dominant capital and of the dominant classes Underdevelopment thus encompasses the traditional peasant economy and also the export sector where the modernizing influence of colonialism was felt The book finally considers how the contemporary internationalization of capital affected the economies of the Third World

[The Political Economy of Underdevelopment in the Global South](#) Justin van der Merwe,Nicole Dodd,2019-01-07 This book presents a new theory explaining underdevelopment in the global South and tests whether financial inputs the government business media GBM complex and spatiotemporal influences drive human development Despite the entrance of emerging powers and new forms of aid trade and investment international political economic practices still support well established systems of capital accumulation to the detriment of the global South Global asymmetrical accumulation is maintained by affective consent forming hegemonic practices and infrastructural uneven economic exchanges labours and by power networks The message for developing countries is that robust GBMs can facilitate human development and development is constrained by spatiotemporal limitations This work theorizes that aid and foreign direct investment should be viewed with caution and that in the global South these investments should not automatically be assumed to be drivers of development

The Political Economy of Development and Underdevelopment Kenneth P. Jameson,Charles K. Dependence and Underdevelopment: Latin America's Political Economy James D. Cockcroft, Andre Gunder Frank, Dale L. Johnson, 1972 This book challenges all of the most commonly held ideas regarding underdevelopment The process of development say the authors is not a matter of higher Gross National Products which to the contrary often serve to increase a country's long run underdevelopment Meaningful development is a political as well as an economic process which improves the quality of life for the people of a country The authors argue that underdevelopment far from being an original or natural condition of the countries of the so called Third World is a condition imposed by the international expansion of capitalism The authors go on dispute some common assumptions regarding industrialization economic aid and the allegedly progressive nature of the international expansion of capitalism The authors go on to dispute some common assumptions regarding industrialization economic aid and the allegedly progressive nature of native bourgeoisies The theory of development and underdevelopment presented in this book is supported by case studies of Mexico Venezuela Chile and other Latin American nations but the implications extend to Asia Africa the Middle East and the internal colonies of the United States

Development and Underdevelopment Hartmut Elsenhans, 1991-03-10 Provides an analysis of the complex political and economic relations between the advanced industrial countries and the developing nations The author is especially critical of the way in which the class structure and mode of production in certain Third World countries is dominated by bureaucracy
