The London Mob Robert Shoemaker, 2007-05-10 By 1700 London was the largest city in the world with over 500 000 inhabitants Very weakly policed its streets saw regular outbreaks of rioting by a mob easily stirred by economic grievances politics or religion If the mob vented its anger more often on property than people eighteenth century Londoners frequently came to blows over personal disputes In a society where men and women were quick to defend their honour slanging matches easily turned to fisticuffs and slights on honour were avenged in duels In this world where the detection and prosecution of crime was the part of the business of the citizen punishment whether by the pillory whipping at a cart's tail or hanging at Tyburn was public and endorsed by crowds The London Mob Violence and Disorder in Eighteenth Century England draws a fascinating portrait of the public life of the modern world's first great city

Policing and Punishment in London 1660-1750 J. M. Beattie, 2001-07-26 This study examines the considerable changes that took place in the criminal justice system in the City of London in the century after the Restoration well before the inauguration of the so called age of reform The policing institutions of the City were transformed in response to the problems created by the rapid

expansion of the metropolis during the early modern period and as a consequence of the emergence of a polite urban culture At the same time the City authorities were instrumental in the establishment of new forms of punishment particularly transportation to the American colonies and confinement at hard labour that for the first time made secondary sanctions available to the English courts for convicted felons and diminished the reliance on the terror created by capital punishment The book investigates why in the century after 1660 the elements of an alternative means of dealing with crime in urban society were emerging in policing in the practices and procedures of prosecution and in the establishment of new forms of punishment
