## Varieties Of Transition:

**Varieties of Transition** Claus Offe,1997 The nine essays collected here all written within the last few years report what Offe has learned They explore such topics as the characteristics and shortcomings of state socialist societies and of democratic capitalism the role of ethnic politics in East European transitions issues of retribution and restitution in the transition to a democratic society based on a private economy and the effects the collapse of Communism have had on Western democracies and on the Left in particular Three essays focus on the special path to capitalism followed by the former GDR including a fascinating comparison between post 1945 West Germany and post 1989 East Germany The Varieties of Transition Claus Offe,1996-11-06 In recent years the countries of eastern Europe have been undergoing a process of rapid social and political transformation This process has brought with it common problems experienced on different levels economic crisis growing social insecurity and injustice ethnic conflicts and civil strife In addition post communist societies have encountered political legal and social difficulties in coming to term with their own past In this book Claus Offe provides a lucid and insightful account of this complex process of transformation In a wide ranging discussion he analyses the problems brought about by the creation of new political and economic orders in the countries of central and eastern Europe and argues that the way forward is to build and consolidate a new democratic polity a new economy and a new conception of nationhood capable of absorbing ethnic conflict He examines the comparatively straightforward but nonetheless extremely rocky special path to capitalism followed by the former German Democratic Republic and analyzes the effects which the collapse of communism has had on western democracies Varieties of Transition will be welcomed by students and researchers in a wide range of disciplines including politics sociology European Studies German Studies and modern history
