Vedic Experience:

The Vedic Experience Raimundo Panikkar, 1994 One of the most stupendous manifestations of the Spirit is undoubtedly that which has been handed down to us under the generic name of the Vedas The Vedas are still too much neglected not only in the world at large but also in their country of origin this Vedic anthology will make direct and fruitful knowledge of the Vedas available to a wider range of people than the small elite of pandits and Indologists This anthology collects the most crucial texts of the Indian Sacred Scriptures in all more than 500 newly translated into contemporary English Dr Panikkar's principle has been to select and place together texts so as to offer a selection of texts that cover the full range of The Vedic Experience and at the same time to show how they manifest the universal rhythms of nature history and Man Excerpts are taken from the oldest hymns such as the Rig Veda from the Brahmanas the Aranyakas or Forest Treatises and finally the Upanishads which represent the mystical and philosophical culmination of the Vedas This is a book for meditation for reading public and private as well as for thorough study at this wellspring of human wisdom It should moreover facilitate that meeting of East and West so long desired and delayed and now so imperative [Raimon Panikkar](#) Peter C. Phan, Ro

Young-chan, 2018-01-01 Raimon Panikkar A Companion to his Life and Thought is a guide to the life work and thought of Raimon Panikkar a self professed Buddhist Christian Hindu philosopher and theologian A man of deep and wide learning and an extremely prolific author Panikkar is equally at home in various religious and cultural traditions and embodies in himself the ideals of intercultural intrareligious and interreligious dialogues This book explicates Panikkar's basic vision of life as the harmonious rhythm of divinity humanity and the cosmos which he terms cosmotheandrisms and shows how it permeates and illumines his articulations of the central Christian doctrines Given the complexity and difficulty of Panikkar's thought this book is a welcome companion for a course on Panikkar and for a general reader who wishes to understand one of the most profound and original thinkers of our time **The Vedic Experience** Raimon Panikkar, 1979 [An Emulation of Sanctity](#)

Yann Vagneux, 2025-10-17 This book offers a theological reflection of great depth that does not fall into the trap of simplistic syncretism nor into the temptation to Christianize a tradition that is thousands of years old and has its own coherence By agreeing to leave the obvious behind without ever denying what makes his Christian faith unique Yann Vagneux offers us an authentic dialogue that accounts for a dual expatriation from Christianity to the Hindu world and from Hinduism to the Christian world The author invites readers to adopt the theological attitude of listening in order to discern the silent symphony of the Spirit that springs from Hindu wisdom even if it means being disoriented This is the condition for becoming a true cooperators of the truth Is the truth not precisely a pilgrimage an invitation to a journey away from familiar shores

"Without Ceasing to be a Christian" Mark Granquist, 2017-12-01 Since his death in 2010 there has been continuing and growing interest in the life vision and thought of the late Spanish Indian mystical theologian Raimon Panikkar As well as offering both a personal affirmation and critique of Panikkar's thought from a Catholic and Protestant perspective the work

compares and contrasts him with a range of Western and Indian theologians both Catholic and Protestant and outlines the possibilities of learning from Panikkar in an ecumenical context [The Divine Matrix](#) Joseph A. Bracken, 1997-01-01 The Divine Matrix represents a bold scholarly attempt to provide a framework for discussing these and other questions that will keep the interreligious dialogue project from grinding to a halt In this book philosopher and theologian Joseph Bracken first locates the Infinite as transcendent source and goal of human activity as the notion common to virtually all the major world religions He suggests that the Infinite is prototypically experienced not as an entity but as an ongoing activity the principle of activity for all beings This idea is consistent with the notion of eternal and continuous motion is Aristotle with the act of being *actus essendi* in the theology of Thomas Aquinas and Meister Eckert and with the ground of being of Shelling and Heidegger as well as with Whitehead s definition of creativity The divine Matrix proposes that the Infinite thus identified be understood as a nondual reality an activity that does not exist in itself but only in the entities which it thereby empowers to exist This Bracken argues becomes the key to understanding ultimate reality within the different world religions [Cirpit Review n. 5 - 2014](#) Aa.
