

# VEDIC HINDU COSMOLOGY

In ancient Hindu Cosmology, what we know as the Earth is only one of countless worlds located in Brahmanda, which is itself only one of the uncountable universes. The known world was located in the middle of Bhū-loka, comprised of many ring-shaped landmasses separated by oceans of various composition. From its center rose Mount Meru, reaching into the heavens. With the cycle of reincarnation, it was possible to reach other, upper or lower realms (or lokas). Below the Bhū-loka was a multitude of increasingly worse hellish realms, with the ocean Garbhodaka located at the very bottom. Above the Earth and the sky were the heavenly realms, with the abode of the creator god Brahma located at the top of the world.
