10 TIPS FOR SUCCESSFUL WEIGHT LOSS

1 DON'T SKIP BREAKFAST

Nearly 10 % of people skip breakfast

Breakfast is the most important meal of the day; you need an energy boosting food or drink like black coffee for adults or a warm cup of green tea, milk for kids, whole wheat bread, low-fat yogurt and fruit, or a bowl of multigrain cereal with almonds and honey.

2 ALWAYS REHYDRATE

Drink at least eight 8-ounce glasses of fluid a day

Drink plenty of water or other calorie-free beverage. If you're not a fan of plain water, try citrus juice with low amounts of sugar, brew-infused teas, and/or black coffee.

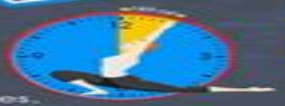
3 CLEAN YOUR KITCHEN AND BE A SLIM SHOPPER

A 150 pound person would burn around 200 calories per hour shopping

Don't deprive yourself of your favorite snacks; instead, cut down by food shopping more often. You can still enjoy your favourite food by using moderation and self-control. Stock your kitchen with healthy and convenient foods.

4 BE PHYSICALLY AND MENTALLY ACTIVE

A 150 pound person would burn at least 189 calories per hour doing yoga



Do yoga and meditation, adding a cardio workout afterwards. Sooner or later you'll get into a stressful situation; instead of overeating comfort foods that are high in calories, learn to stay calm and be more active to improve self-control and endurance.

5 BE PERSISTENT, BELIEVE AND DO NOT PUSH IT TO THE LIMIT

You can't fail unless you quit. If you are getting frustrated, make sure you are not under-eating, over-exercising, or expecting too much from the scale each week. Find the right balance of nutrition and exercise to feel strong and satisfied. Keep a positive mind-set that you can be successful with weight loss; forget all the ''reasons'' why you can't lose weight fast. Overcome negativity and focus on the things that are in your control.

6 GET MORE SLEEP

Improve the quality of your rest by setting a regular bedtime.

Go to bed at the same time every night and wake up at the same time every day (selecting seven or eight hours). Have a power nap as needed to make up for lost sleep.

7 BENEFITS OF SUNLIGHT

Only takes less than 30 minutes in the sun to give your body enough time to generate the vitamin D

Remove your sunglasses in the morning and let sunlight shine upon your face. Studies show that you can ease mild depressions and cope better with stress when you are not lacking in Vitamin D. Sunlight increases the levels of a natural antidepressant in the brain.On sunny days, the brain produces more of the mood-liftingchemical serotonin than on darker days.

8 PRAY THE FAT AWAY

Individuals who report feeling greater intimacy with God through prayer are more likely to be physically active, according to research from Cornell University. "Studies show that those who have more social support move more, and being closer to God may give people that support."

9 GIVE YOURSELF A LITTLE CHEAT DAY

It is important that you permit yourself certain treats in moderation along with your personal weight loss program.

During this period people were frequently able to eat everything they wanted since they were burning significantly more calories than consuming The good times have gone by and today s society s technology has left us in a single state that of being obese Our way of life has shifted dramatically and our comfort level has improved tenfold as a result Every rose has its thorn and for our society our desire to live comfortable lives while working less has begun to manifest itself in the form of a bulging waistline The unfortunate aspect of all of this is that the more weight you gain the more dangerous it becomes Extra weight is a harbinger of illness whether it manifests itself as diabetes or a heart condition it will eventually manifest itself if you do nothing to address it You must be proactive in gaining weight and you must struggle to lose it until you reach a position where you no longer have control It is unnecessary to be toned and sculpted but rather to maintain a healthy weight that is not life threatening It is possible to focus on your abs later for now all that is required is that you lose some excess body fat As society comes to terms with the fact that we are becoming increasingly overweight as a population people are attempting to play catch up and work from behind To lose weight and live a better lifestyle they are making an effort Learn 100 Weight Loss Tips
