Foundational Phonics Word Mastery Ariel Gunther Mount,2022-07 Foundational Phonics was created as a labor of love for an eight year old girl who just couldn't get the hang of learning to read It was designed to answer the need for a curriculum that gives parents the ability to confidently teach their own children by providing them with a sensible logical open and go tool for teaching reading It is an intensive but gentle phonics instruction program that anyone who wants to teach reading can use without any training or scripted lesson plans This curriculum can be used to teach reading to

beginners of all ages including older students in need of remediation and those struggling with dyslexia or learning disabilities Book One sets the foundation for success As letters and their sounds are systematically introduced through a multi sensory approach children are given the tools they need to begin decoding and reading words right away Reading becomes a reward and a joy as each new letter is mastered and the discovery of the written word is unlocked Book Two sets the framework for speed and confidence Word groups are logically introduced one step at a time Children progress from reading words and sentences in Book One to reading meaningful stories and complicated words in Book Two This program contains all the tools needed for teaching a child to read from start to finish **Word Mastery Primer** Kyra
