*The Welsh Answering System* Bob Morris Jones, 2011-06-24 TRENDS IN LINGUISTICS is a series of books that open new perspectives in our understanding of language. The series publishes state of the art work on core areas of linguistics across theoretical frameworks as well as studies that provide new insights by building bridges to neighbouring fields such as neuroscience and cognitive science. TRENDS IN LINGUISTICS considers itself a forum for cutting edge research based on solid empirical data on language in its various manifestations including sign languages. It regards linguistic variation in its synchronic and diachronic dimensions as well as in its social contexts as important sources of insight for a better understanding of the design of linguistic systems and the ecology and evolution of language. TRENDS IN LINGUISTICS publishes monographs and outstanding dissertations as well as edited volumes which provide the opportunity to address controversial topics from different empirical and theoretical viewpoints. High quality standards are ensured through anonymous reviewing.

*The Celtic Languages* Martin J. Ball, Nicole Muller, 2009-09-10 *The Celtic Languages* describes in depth all the Celtic languages from historical structural and sociolinguistic perspectives with individual chapters on Irish, Scottish Gaelic, Manx, Welsh, Breton and Cornish. This second edition has been thoroughly revised to provide a comprehensive and up to date account of the modern Celtic languages and their current sociolinguistic status along with complete descriptions of the historical languages. This comprehensive volume is arranged in four parts. The first part offers a description of the typological aspects of the Celtic languages followed by a scene setting historical account of the emergence of these languages. Chapters devoted to Continental Celtic, Old and Middle Irish and Old and Middle Welsh follow. Parts two and three are devoted to linguistic descriptions of the contemporary languages. Part two has chapters on Irish, Scots Gaelic and Manx while Part three covers Welsh, Breton and Cornish. Part four is devoted to the sociolinguistic situation of the four contemporary Celtic languages and a final chapter describes the status of the two revived languages, Cornish and Manx. With contributions from a variety of scholars of the highest reputation, *The Celtic Languages* continues to be an invaluable tool for both students and teachers of linguistics, especially those with an interest in typology, language universals and the unique sociolinguistic position which the Celtic languages occupy.
