Relations Dept.,2003-08-22 This paper highlights that the Washington Consensus helped fill the need for an economic policy framework following the discrediting of central planning and import substitution trade strategies Latin American governments championed the Consensus in the early 1990s and the policy agenda delivered some of the things it was supposed to healthier budgets lower inflation lower external debt ratios and economic growth But unemployment rose in many countries and poverty remained widespread while the emphasis on market openness made states vulnerable to the side effects of globalization Human Development Report ,2002 **Encyclopedia of the Global Economy: List of entries** David Edward O'Connor,2006 Examines the concepts people and organizations related to economic globalization from the sixteenth century to the present and features over 150 alphabetically arranged entries and primary documents on topics including international trade outsourcing and child labor Making Services Work for Poor People ,2003 Too often services fail poor people in access in quality and in affordability But the fact that there are striking examples where basic services such as water sanitation health education and electricity do work for poor people means that governments and citizens can do a better job of providing them Learning from success and understanding the sources of failure this year s World Development Report argues that services can be improved by putting poor people at the center of service provision How By enabling the poor to monitor and discipline service providers by amplifying their voice in policymaking and by strengthening the incentives for providers to serve the poor Freedom from illness and freedom from illiteracy are two of the most important ways poor people can escape from poverty To achieve these goals economic growth and financial resources are of course necessary but they are not enough The World Development Report provides a practical framework for making the services that contribute to human development work for poor people With this framework citizens governments and donors can take action and accelerate progress toward the common objective of poverty reduction as specified in the Millennium Development Goals **Gender Differences in Retirement Incentives** Jeungkun Kim,2008 **The Stockholm Journal of East Asian Studies** ,2006 Trends and Challenges in Public Administration Reform in Asia and the Pacific ,2005 *EFA Global Monitoring Report* ,2009 *Creating Value for All* ,2008 The extreme prevalence of poverty in today s world calls us urgently for action Yet the poor harbour a potential for consumption production innovation and entrepreneurial activity that is largely untapped This report shows how entrepreneurs can serve the poor as clients and customers and can also include the poor as producers employees and business owners The report s main message Business with the poor can create value for all The publication draws on 50 specially commissioned case studies of businesses that have successfully included the poor despite the constraints and created value for all The cases afford the wealth of ideas for inclusive business models **Sub-regional Statistics and Analysis** ,2006 Dakar 6 is the first intermediary report to be published by the UNESCO Regional Office for Education in Africa BREDA It centers on statistics as will all the intermediary report **Regional Development Dialogue** ,2013 **The Jobs Crisis** World Bank,2011 The financial crisis swiftly expanded

into an economic crisis throughout America and Western Europe from where it spread to developing countries that had depended on foreign direct investment consumer and mortgage credit trade and remittances By early 2009 it was clear that this economic downturn would be more severe than any crisis since the great depression prompting some to it as the great recession Eastern European and Central Asian countries were hit particularly hard during 2009 global Gross Domestic Product GDP contracted for the first time since Second World War The financial crisis and the ensuing economic downturn the worst since the Great Depression in the 1930s went hand in hand with tightening of credit markets bank failures firm closures and high demand for social safety nets This report The jobs crisis household and Government responses to the great recession in Eastern Europe and Central Asia brings together evidence that World Bank teams have collected on the impact of the crisis on households and families in Eastern Europe and Central Asia This report shows how the crisis was felt by Eastern European and Central Asian households Not only did unemployment rise sharply but it also lasted longer The report also shows that the pain of the recession was broader with workers taking home smaller paychecks as firms offered lower wage rates and fewer hours of work to their workers The jobs crisis finds that households used a variety of ways to cope with the crisis The jobs crisis presents an account of how governments reacted to the crisis through social policy reforms and initiatives and how such responses could be improved in the future Unemployment insurance benefits played a particularly important cushioning role but coverage of the unemployed tended to be limited
