The Fashion System:

The Fashion System Roland Barthes, 1983 In his consideration of the language of the fashion magazine the structural analysis of descriptions of women's clothing by writers about fashion Barthes gives us a brief history of semiology At the same time he identifies economics as the underlying reason for the luxuriant prose of the fashion magazine Calculating industrial society is obliged to form consumers who don't calculate if clothing's producers and consumers had the same consciousness clothing would be bought and produced only at the very slow rate of its dilapidation

The Fashion System Roland Barthes, 1985 Fashion never ceases to interest psychologists aestheticians and sociologists Roland Barthes however examined fashion from a new point of view Using descriptions from magazines he uncovered a system of meaning and subjected it to semantic analysis

The Fashion System Roland Barthes, 1990 Counter In his consideration of the language of the fashion magazine the structural analysis of descriptions of women's clothing by writers about fashion Barthes gives us a brief history of semiology At the same time he identifies economics as the underlying reason for the luxuriant prose of the fashion magazine Calculating industrial society is obliged to form consumers who don't calculate If clothing's producers and consumers had the same consciousness clothing would be bought and produced only at the very slow rate of its dilapidation from publisher description

Dress and Popular Culture Patricia Anne Cunningham, Susan Voso Lab, 1991 The subjects of the essays in this book range from looking at the ever changing means of specific garments and clothing practices of subcultural groups to examining dress as a reflection of changing life styles in American culture The essays also examine fashions fads and popular images Dress and Popular Culture hopes to shed new light on popular culture through a study of the associations of dress to culture

Fashion Zeitgeist Barbara Vinken, 2004-11-01 Although it is appealing to think that fashion has taken a sharp turn away from conventions established in the industry over the past century and more is this really the case Or are pioneering designs simply part of a cyclical revival of forgotten fashions Looking at some of the most influential designers of the twentieth century Vinken considers the politics and philosophies that have been the driving forces directing their sense of style Vinken describes Fashion Zeitgeist as a trend characterized by representations of traces of the past She considers the key concepts behind designers such as Yamamoto Gaultier and Lagerfeld The originality of Yamamoto's multi-layered look stems from his philosophy that it is the individual sum of experience that is important not the collective consequences of history Martin Margiela although he himself refuses to be photographed or appear in the public eye brings new individuality into fashion Chanel under the direction of Karl Lagerfeld is viewed as the only fashion house to have remained fresh after 100 years yet is this success essentially proof of the self-referential qualities fashion has adopted What inspired the fetish for labels at the end of the twentieth century Answering these questions and many more this concise and thought-provoking book shows how beauty gender sexuality commerce and dandyism have persisted in defining the fashion system

Designing Fashion's Future Alice Payne, 2020-12-10 How do fashion designers design How does design

function within the industry How can design practices open up sustainable pathways for fashion s future Designing Fashion s Future responds to these questions to offer a fresh understanding of design practices within the sprawling shifting fashion system Fashion design is typically viewed as the rarefied practice of elite professionals or else as a single stage within the apparel value chain Alice Payne shows how design needn t be reduced to a set of decisions by a designer or design team but can instead be examined as a process object or agent that shapes fashion s material and symbolic worlds Designing Fashion s Future draws on more than 50 interviews with industry professionals based in Australia Asia North America Europe and the United Kingdom These diverse perspectives from multinational retailers independent and experimental contexts ground the discussion in contemporary industry practices
