*Creating the Productive Workplace* Derek Clements-Croome, 2017-09-22 The built environment affects our physical mental and social well being Here renowned professionals from practice and academia explore the evidence from basic research as well as case studies to test this belief They show that many elements in the built environment contribute to establishing a milieu which helps people to be healthier and have the energy to concentrate while being free to be creative The health and well being agenda pervades society in many different ways but we spend much of our lives in buildings so they have an important role to play within this total picture This demands us to embrace change and think beyond the conventional wisdom while retaining our respect for it *Creating the Productive Workplace* shows how we need to balance the needs of people and the ever increasing enabling technologies but also to take advantage of the healing powers of Nature and let them be part of environmental design This book aims to lead to more human centred ways of designing the built environment with deeper meaning and achieve healthier and more creative as well as more productive places to work

**Reading the Mind of the Organization** Anna-Maria Garden, 2000 The author applies the fundamental principles of psychology to the modern organization She presents a whole range of issues such as identity image strategy and work design in terms of a cohesive framework It shows how to read an organization revealing the perceptions of customers and staff The text explains why some companies have presence and can easily claim space in the market while others find it difficult why some companies find it hard to achieve the internal change that is required to meet external changes and why some companies are believable in what they say whilst others create mixed messages

**Transformation Design** Wolfgang Jonas, Sarah Zerwas, Kristof von

Anshelm,2015-11-27 Transformation design is looking for new ways to change our behavior and society through new forms of innovation The existing user oriented approach of design must therefore be extended to one that is society oriented The concept of transformation is based on the anthropologist Karl Paul Polanyi and his book *The Great Transformation* 1944 which described the emergence of the now almost undisputed and globally widespread western market logic the transformation of societies with markets into market societies which he calls dislodgment of the markets Meanwhile leading think tanks are referring to Polanyi They are calling for a new social contract and the re embedding of the market into society What are the possible instruments and contributions of design for this new Great Transformation The variety of the above questions answers theories methods ideas and projects suggests that transformation design is not in fact a discipline in itself but that it will lead to a fruitful discourse The book attempts to form an initial position in terms of this ambitious and ethical design perspective It also seeks to inspire the international debate to push for a project of responsible design
