Keith, 2023-12-22 *Global Broadcasting Systems* 1996 provides a comprehensive look at broadcasting throughout the world. It covers every continent, region, and almost every country in North and South America, Europe, Africa, Asia, and Oceania. Within each geographical area, it presents the history, key issues, trends, and status of broadcasting facilities and penetration, the control, regulation, and management of networks and stations by government, domestic and foreign industry, and the public; the financing of broadcasting systems; programming types and trends, including foreign imports; media freedom and censorship; and external radio and television services from other countries.
