## **World Government:**

World Government - Utopian Dream Or Current Reality, Vol. 1 Raymond W. Converse, 2010 Arguing that a world government may be the best hope for addressing major problems facing the world that is poverty global warming global trade the lack of financial regulation and others the author approaches the reasons for a world government and the steps necessary to institute it Total disarmament must come first he says and he outlines what might be required to meet that desirable state Questions of local sovereignty versus global rights and responsibilities are explored in a nontechnical way opening the discussion to readers who are concerned about the future but who may not be experts in the areas of Political Science or Economics Obstacles and opportunities are brought to light in a manner that will allow the reader to make his own decisions about what steps ought to be taken A sample constitution is offered to allow a beginning point for discussion

**The New World Government-Structure and Constitution** Prof. Dr. D. Swaminadhan, 2019-03-24 Two issues are bothering the humanity at present Firstly the contemporary national and international scenarios in socioeconomic political ethnic and cultural domains are throwing up many issues problems and challenges relating to development environment human rights human security communal harmony peaceful coexistence among nations and world peace and security Secondly existing global institutions are proving to be wanting in their structures and authorities in solving these problems Alternatively a new global independent organization with enforcing authority is needed to act upon and solve these issues The need for replacement of UNO seems to be justified because of failure to solve global problems The nineteenth and twentieth centuries witnessed revivals of proposals for world government that were fueled by positive developments such as technological progress in travel and communications that enabled rapid economic globalization as well as negative developments such as the devastating impact of wars fought with modern technology The author's approach of the formation of the world parliament is through proportional representation of nation's parliaments thus avoids direct election process for its formation All the nations and their people's representatives are involved in the formation of the World Parliament and the world government Based on this line of thinking the structure for a new federal world government and the new federal world constitution are presented in this book
