Social Control Through Law

Leon Carroll Marshall

Social Control Through Law:

Social Control Through Law Roscoe Pound, 1997 In *Social Control Through Law* Roscoe Pound formulates a list of social ethical principles with a three fold purpose First they are meant to identify and explain human claims demands or interests of a given social order Second they express what the majority of individuals in a given society want the law to do Third they are meant to guide the courts in applying the law Pound distinguishes between individual interests public interests and social interests He warns that these three types of interests are overlapping and interdependent and that most claims demands and desires can be placed in all three categories Pound s theory of social interests is crucial to his thinking about law and lies at the conceptual core of sociological jurisprudence

Social Control Through Law Roscoe Pound, 2017-07-05 *Social Control Through Law* is remarkable in manner and style Roscoe Pound shows himself to be a jurist philosopher and scientist For Pound the subject matter of law involves examining manifestations of human nature which require social control to assert or realize individual expectations Pound formulates a list of social ethical principles with a three fold purpose First they are meant to identify and explain human claims demands or interests of a given social order Second they express what the majority of individuals in a given society want the law to do Third they are meant to guide the courts in applying the law Pound distinguishes between individual interests public interests and social interests He warns that these three types of interests are overlapping and interdependent and that most claims demands and desires can be placed in all three categories Pound s theory of social interests is crucial to his thinking about law and lies at the conceptual core of sociological jurisprudence Pound explains that rights unlike interests are plagued with a multiplicity of meanings He rejects the idea of rights as being natural or inalienable and argues that to the contrary interests are natural The contemporary significance of the book is aptly demonstrated by the skyrocketing rate of litigation in our postmodern society As the influence of familial and religious institutions declines the courts exert an unprecedented degree of control over the public and private lives of most Americans Law is now the paramount agency of social control In the new introduction A Javier Treviño outlines the principal aspects of Roscoe Pound s legal philosophy as it is conveyed in several of his books articles and addresses and shows their relationship to *Social Control Through Law* This book is an insightful concise summary of Pound s ideas that after more than half a century remains surprisingly fresh and relevant It will doubtlessly continue to engage jurists legal theorists and sociologists for many years to come

Social Control Through Law Roscoe Pound, 2017-11-10 *Social Control Through Law* is remarkable in manner and style Roscoe Pound shows himself to be a jurist philosopher and scientist For Pound the subject matter of law involves examining manifestations of human nature which require social control to assert or realize individual expectations Pound formulates a list of social ethical principles with a three fold purpose First they are meant to identify and explain human claims demands or interests of a given social order Second they express what the majority of individuals in a given society want the law to do Third they are meant to guide the

courts in applying the law Pound distinguishes between individual interests public interests and social interests He warns that these three types of interests are overlapping and interdependent and that most claims demands and desires can be placed in all three categories Pound s theory of social interests is crucial to his thinking about law and lies at the conceptual core of sociological jurisprudence Pound explains that rights unlike interests are plagued with a multiplicity of meanings He rejects the idea of rights as being natural or inalienable and argues that to the contrary interests are natural The contemporary significance of the book is aptly demonstrated by the skyrocketing rate of litigation in our postmodern society As the influence of familial and religious institutions declines the courts exert an unprecedented degree of control over the public and private lives of most Americans Law is now the paramount agency of social control In the new introduction A Javier Trevi o outlines the principal aspects of Roscoe Pound s legal philosophy as it is conveyed in several of his books articles and addresses and shows their relationship to Social Control Through Law This book is an insightful concise summary of Pound s ideas that after more than half a century remains surprisingly fresh and relevant It will doubtlessly continue to engage jurists legal theorists and sociologists for many years to come [Social Control Through Law](#) Roscoe Pound,1968 **The Oxford Handbook of Law and Anthropology** Marie-Claire Foblets,Mark Goodale, Maria Sapignoli,Olaf Zenker,2022-04-01 The Oxford Handbook of Law and Anthropology is a ground breaking collection of essays that provides an original and internationally framed conception of the historical theoretical and ethnographic interconnections of law and anthropology Each of the chapters in the Handbook provides a survey of the current state of scholarly debate and an argument about the future direction of research in this dynamic and interdisciplinary field The structure of the Handbook is animated by an overarching collective narrative about how law and anthropology have and should relate to each other as intersecting domains of inquiry that address such fundamental questions as dispute resolution normative ordering social organization and legal political and social identity The need for such a comprehensive project has become even more pressing as lawyers and anthropologists work together in an ever increasing number of areas including immigration and asylum processes international justice forums cultural heritage certification and monitoring and the writing of new national constitutions among many others The Handbook takes critical stock of these various points of intersection in order to identify and conceptualize the most promising areas of innovation and sociolegal relevance as well as to acknowledge the points of tension open questions and areas for future development **Law and Society** Steven Vago,Steven E. Barkan,2017-09-22 In the 11th edition of Law and Society Steven E Barkan preserves Dr Vago s voice while making this classic text more accessible for today s students Each chapter now includes an outline learning objectives key terms and chapter summaries A new epilogue chapter examines law and inequality in the United States as it moves into the third decade of this century The 11th edition reflects new developments in law and society literature as well as recent real life events with legal relevance for the United States and other nations Law and Society is for one semester undergraduate

courses in Law and Society Sociology of Law Introduction to Law and a variety of criminal justice courses offered in departments of Sociology Criminal Justice and Political Science

Social Control and Deviance Ali Wardak,2018-02-05 This title was first published in 2000 This book provides an empirical account of social control and deviance in a South Asian community in Scotland Focusing on Edinburgh s Pakistani community the book examines the social order of this particular community and the ways it is maintained It explores the various social institutions and processes that operate as mechanisms of informal social control within the community This book also examines the ways the second generation South Asians relate to their community and the extent to which they conform or deviate from its norms Criminological social control theory is used as an analytical framework for explaining deviance It is concluded that the South Asian youngsters boys who have weak broken bonds with their community are more likely to deviate from its norms The book further concludes that social control and deviance are intricately interrelated While social control defines what is deviance the latter has important implications for the former repeated occurrence of deviance prompts agencies of social control to redefine and gradually normalize deviance

Natural Law and Natural Rights John Finnis,2011-04-07 First published in 1980 Natural Law and Natural Rights is widely heralded as a seminal contribution to the philosophy of law and an authoritative restatement of natural law doctrine It has offered generations of students and other readers a thorough grounding in the central issues of legal moral and political philosophy from Finnis s distinctive perspective This new edition includes a substantial postscript by the author in which he responds to thirty years of discussion criticism and further work in the field to develop and refine the original theory The book closely integrates the philosophy of law with ethics social theory and political philosophy The author develops a sustained and substantive argument it is not a review of other people s arguments but makes frequent illustrative and critical reference to classical modern and contemporary writers in ethics social and political theory and jurisprudence The preliminary First Part reviews a century of analytical jurisprudence to illustrate the dependence of every descriptive social science upon evaluations by the theorist A fully critical basis for such evaluations is a theory of natural law Standard contemporary objections to natural law theory are reviewed and shown to rest on serious misunderstandings The Second Part develops in ten carefully structured chapters an account of basic human goods and basic requirements of practical reasonableness community and the common good justice the logical structure of rights talk the bases of human rights their specification and their limits authority and the formation of authoritative rules by non authoritative persons and procedures law the Rule of Law and the derivation of laws from the principles of practical reasonableness the complex relation between legal and moral obligation and the practical and theoretical problems created by unjust laws A final Part develops a vigorous argument about the relation between natural law natural theology and revelation between moral concern and other ultimate questions
