Spiritual Development in Schools Alan Brown, Joan Furlong, 1996-01-01 This text provides guidance on the promotion of the spiritual development of pupils now a recognized element of the curriculum and subject to inspection by OFSTED OHMCI and by denominational inspectors *Spiritual and Moral Development in Schools* John West-Burnham, Vanessa Huws Jones, 2007 A personal development resource with staff development activities and resources for the classroom

Perceptions of Spirituality and Spiritual Development in Education Held by Teachers and Students on Teacher Training Courses Martin Rawle, 2009 Current legislation requires schools in England and Wales to promote the spiritual development of their pupils The non statutory guidance provided by various bodies has resulted in broad and inclusive definitions of the spiritual and spiritual development which combines both the religious and the secular and applies to all areas of the curriculum and school life The world of academia has responded to this quasi official guidance with varying degrees of approval to downright hostility exposing the pretence that all agree with the current definitions and guidance This thesis examines by means of a cross sectional survey using qualitative and quantitative data gathered by means of questionnaire and interview the perceptions of a sample of student teachers 428 on teacher training courses and qualified teachers 76 of the meanings of spirituality spiritual experience and spiritual development Although different viewpoints emerge some underlying themes can be discerned Spirituality is conceived as the acquisition of a set of principles to guide everyday living which may be derived from a religion from a personal philosophy or from beliefs concerning morality relationships with others and an increased awareness of life and the world The spiritual development of pupils is seen to imply their freedom to search for and decide the principles they will adopt The views of respondents on the extent to which spiritual development should form part of the teacher s role are also reported and it is suggested that current terminology associated with spirituality be replaced with terms which students and teachers can more readily understand **Spiritual Development in the State School** Terence Copley, 2000 How can children develop spiritually and how do their teachers know when development has occurred This volume traces the roots and growth of school worship and spiritual development from Victorian times and earlier through the 1960s and beyond in order to see how we have reached the present situation The subject is examined in various contexts its historical and cultural background politics and legislation philosophy and values curriculum development The book addresses the problem of how to define spiritual development and the contentious issue of compulsory school worship It offers new insights and a thesis for the way forward **The Soul of Education** Rachael Kessler, 2000-04-15 Foreword by Parker Palmer How can educators and parents of diverse backgrounds come together to find ways to invite soul into schools How do educators address soul in education without violating the separation of church and state or the deeply held beliefs of families and students In this book Rachael Kessler shows how Based on the deeply moving stories and profound questions of students themselves each chapter responds to the yearnings young people express

Deep Connection Meaning and Purpose Silence Joy Creativity Transcendence and Initiation each evokes a gateway to inviting soul into the classroom Without healthy forums led by responsible adults young people seek these gateways on their own sometimes in destructive ways like drugs sex suicide hazing and even murder Helping students find constructive ways to express their longings increases their motivation to learn stay in school strengthen ties to family and friends and approach adult life with vitality character and vision This practical and inspirational sourcebook will support school communities that are committed to preventing violence and alienation and producing responsible caring citizens Note This product listing is for the Adobe Acrobat PDF version of the book **Lessons in Spiritual Development** Ann Casson, Trevor Cooling, Leslie J. Francis, 2017-08-30 Positive spiritual development is an obligation on all schools This new source book for education professionals documents how ten leading Christian ethos secondary schools have prioritized the spiritual development of their students Each chapter tells the story of how one of the schools approaches this responsibility showing the variety of innovation and creativity taking place within spiritual education It offers wisdom from practitioners on the opportunities and challenges that exist as well as inspiration to other schools wishing to improve their provision for spiritual development

**What is Spiritual Development?** Jacqueline Elizabeth Watson, University of East Anglia, 2005 **The Relationship Between Pupils' Spiritual Development and School Ethos** I. W. Ellis, 2013 **Time for Reflection** Steve Younger, 2018-09-30 Time for Reflection is a comprehensive handbook for school chaplains and all with responsibility for ensuring the spiritual development of children and young people It offers clear and essential guidance on a wide variety of topics the role of chaplains in relation to pupils parents staff and the whole school community guidelines on appointing chaplains codes of conduct involving chaplains in the delivery of curriculum content chaplaincy and pastoral care chaplaincy and crisis support a practical theology of chaplaincy In addition busy chaplains will welcome the range of tried and tested ideas for assemblies and other acts of religious observance and the directory of online resources for chaplaincy ministry Framed within Scotland's Curriculum for Excellence and grounded in academic research new and experienced chaplains everywhere will find Time for Reflection an invaluable guide *Primary School Assembly Perspectives and Practices* Diane C. Smart, 2001 Since 1988 the spiritual development of pupils has been a stated aim of the whole school curriculum By 1994 OFSTEDs report into religious education and collective worship had identified the failure of collective worship in primary schools more usually known as assembly to contribute satisfactorily to pupils spiritual development Using a case study approach this present research has sought to reveal ways in which teachers perspectives on the spiritual and their assembly practices might impact upon pupils spiritual development The current assembly practices at six Somerset schools were examined together with the perspectives that those taking the assemblies bring to that experience Data from observations and interviews was analysed in relation to those activities deemed conducive by the inspectorate to the promotion of spiritual development The same data was also analysed in relation to those factors which are seen to affect the selection of assembly

elements and activities The findings suggest that whilst assemblies may be perceived to contain many of the elements currently recommended for spiritual development factors relating to assembly organisation accommodation practices and content could nevertheless in some cases be impacting negatively on pupils spiritual development In addition not only is the concept of the spiritual variously understood by both teachers and inspectors but training for the development of pupils spiritually is not well established The research raises questions about the suitability of current assembly practices for developing pupils spiritually Furthermore it suggests that unless and until teachers and inspectors develop a more consistent understanding of the complex nature of spirituality and how pupils can best be developed spiritually based on present and future research and adequate training pupils spiritual development is unlikely to be well served by primary school assemblies

**Christian Faith, Formation and Education** Ros Stuart-Buttle, John Shortt, 2017-11-13 This book discusses the relationship between faith formation and education Rooted in a variety of discourses the book offers original insights into the education and formation of the human person both theoretical and practical Issues are considered within a context of contemporary tensions generated by an increasingly pluralist society with antipathy to religious faith and debated from interdenominational Christian perspectives Including chapters by an international team of experts the volume demonstrates how Christian faith holds significance for educational practice and human development It argues against the common assumption that there can be a neutral approach to education whilst at the same time advocating a critical dimension to faith education It brings fresh thinking about faith and formation which demands attention given the fast changing political educational and socio cultural forces of today It will appeal to students and researchers involved in Christian educational practice *Education, Spirituality, and the Whole Child* Ron Best, 1996 Education Spirituality and the Whole Child brings together a range of views and perspectives on the role of morality spirituality and education on the development of children

*The spiritual development of students : a challenge for secular schools* ,2007 *Spirituality in Education in a Global, Pluralised World* Marian de Souza, 2016-01-08 A particular problem associated with international research in the field of spirituality and education is the reluctance of scholars to agree on what spirituality means with numerous descriptions increasing ambiguity and reducing the impact of research in the discipline This book argues that it is important to understand spirituality as a unifying concept that has the potential to be meaningful in its application to the lives of children and young people in areas of learning and wellbeing Chapters show why and how spiritual learning should be addressed across the curriculum with implications for the design of learning programs and environments [Spirituality: Theory, Praxis and Pedagogy](#) ,2020-04-28 **Spiritual Development in UK Schools** Emily Sadowski, 2009 **The Spiritual Development of Elementary School Aged Children** Lloyd E.
