The More We Know Eric Klopfer and Jason Haas both part of the MIT development team describe the rise and fall of iCue and what it can teach us about new media old media education and the challenges of innovating in educational media Klopfer and Haas show that iCue was hampered by among other things an educational establishment focused on teaching to the test television producers uncomfortable with participatory media and confusion about the market But this is not just a cautionary tale sometimes more can be learned from an interesting failure than a string of successes Today s educational technology visionaries iPads for everyone might keep this lesson in mind
