help agile teams work together so well In addition to seeing work and knowing what done means you ll see examples of many possible team based measurements Look at tools you can use for status reporting and how to use those measurements to help your managers understand what agile techniques buy them Recognize the traps that prevent agile principles from working in too many organizations and what to do about those traps Use agile techniques for workgroups and see what managers can do to create and nurture an agile culture You might be surprised at how few meetings and rituals you need to still work in an agile way Johanna s signature frankness and humor will get you on the right track to design your agile project to succeed What You Need No technical expertise or experience needed just a desire to know more about how you might use agile in your project
