## Summer Token:

*The Smart Set* George Jean Nathan, Henry Louis Mencken, 1906      **The Smart Set**, 1906      **A Token's View from Inside the Internal Revenue Service** Oscar Williams, 2000-02 This book is a humorous satire about the inner fumbling bumbling and sometimes just plain chaos which the Internal Revenue Service would like to keep away from the public eyes A few of the things which this book illustrates are a failed equal employment opportunity program an antiquated payroll system which kept the employees in turmoil an awards program which gave away hundreds of thousands of tax payer dollars just because employees came to work or because of the color of their skin failed management development programs which cost the taxpayers millions of dollars and the whimsical expensive penchant the IRS has for chasing today's fads and abandoning them when the new ones come along These are a few items in the book but there are many more which will leave the readers shaking their heads in disbelief There are no technical tax matters in the book The author describes the events in an easy going conversational style It is guaranteed to make the readers laugh at the inept IRS management system and at times it might make the readers a little bit angry when they see how their hard earned tax dollars are foolishly squandered

*Bonnyborough* Adeline Dutton Train Whitney, 1886      *Open Air*, 1924      **The Coins and Tokens of the Possessions and Colonies of the British Empire** James Atkins, 1889      Field-Programmable Analog Arrays Edmund Pierzchala, Glenn Gulak, Leon Chua, Angel Rodríguez-Vázquez, 2013-06-29 Field Programmable Analog Arrays brings together in one place important contributions and up to date research results in this fast moving area Field Programmable Analog Arrays serves as an excellent reference providing insight into some of the most challenging research issues in the field      The New Zealand Official Year-book New Zealand.
