billion of years by conversion of energy to mass The gradual growth of stars and the planet search programs that found hundreds of nearby planets indicate that stars are born from planets This invalidates the solar nebula hypothesis as the source of the stars and the solar system Stars fluctuate from a main sequence state to a red giant state They stay in the main sequence when they receive strong magnetic fields and they turn into a red giant when the magnetic fields are weakened The sun also fluctuated from a main sequence to a red giant When the sun was a red giant it had strong solar wind that supplied the material to create the planets The solar system contains hard evidence that the sun was a red giant those are short lived isotopes and chondrules The fact that there is hard evidenced to a red giant sun confirm this theory Highlights of this theory include the following 1 The sun energy source is from magnetic fields from the galactic center 2 The heat induced by the magnetic fields leads to high energy collision between particle in the sun core that creates new particle and increase the sun mass 3 All the stars in the galaxy create new mass so the total mass and the size of the galaxy is increasing 4 The stars in the galaxy eject dust that freefall to the galactic center supermassive black hole Thorough the dynamo effect the gravitational potential energy of the debris and dust is converted to magnetic fields 5 As the galaxy mass and size increase globular clusters are detached from the main galaxy to create new galaxies 6 Galaxies spawn new galaxies and the total number of galaxies in the universe increase 7 The universe expands and accelerates from the increase in the number of the galaxies 8 The Big Bang cosmological model is replaced by a new cosmological model that resembles the steady state theory 9 Stars grow gradually from conversion of energy to mass 10 Stars are born from planets they first grow by accretion and then by conversion of energy to mass 11 Stars fluctuate from main sequence to a red giant When the magnetic fields are strong the star is in the main sequence when the magnetic fields are weakened the star turn to a red giant 12 The sun was a red giant 4 6 billions years ago 13 The planets were created from the strong solar wind of the red giant sun

**"indispensable Handbook" to the Optical Lantern** Henry Sturmey,1888 Learning Elementary Science for Class 8

V.K. Sally, S.K. Aggarwal, Goyal Brothers Prakashan, 2020-04-01 The present series LEARNING ELEMENTARY SCIENCE for Classes 6-8 follows the concept of Learning without burden as a guiding principle. Science has to be understood as a lively and growing body of knowledge. The children have to learn the dynamism of science by observing things closely, recording observations, and when drawing inferences from what they observe. Observations are to be made by performing such activities which can be easily performed by the children, often without costly equipment and even at their homes. When science is learned in this manner, the children would learn the ways of nature and start appreciating it. The salient features of this series are: It is in strict accordance with the latest N C E R T syllabus. It encourages the learning of science through activities. The activities provide hands-on experience to the learners. All the activities and experiments are class-tested. The language used is simple and lucid. It explains the laws and principles of science in a clear and concise way. The series has updated information along with interesting facts in the form of Did you know. Exercises and Activities Projects are given at the end of each chapter. Exercises contain Multiple Choice Questions, Fill in the Blanks, True and False, Match the Statements, Short Answer Type Questions, etc. Activity The project contains Activities, Projects, Charts, Models, Class Response, Visit Quiz, the topic for Seminar, Debate. The assessments develop skills of comprehension of concepts, enhance knowledge and application of what is learned. Life skills relevant to the chapters are given at the end of the chapters. Two Model Test Papers are given at appropriate places for Half Yearly Examination and Yearly Examination. Four Periodic Test Papers are given at appropriate places for Periodic Assessments. Learning Elementary Science becomes a joyful experience with a number of clearly labeled illustrations and learner-friendly simple language. Goyal Brothers Prakashan
